

Rooters' Lids Disappear Fast From Co-op

The sale of more than 1000 Rooters' lids proceeded rapidly in the University Co-op, and the individual houses, as Oregon prepared to show its spirit for the first football game Saturday.

Both men and women will wear the lids in the Santa Barbara game, according to rally board chairman, Alex Murphy. Women will wear the new reversible kelly-green and lemon lids, while men sport the standard model. It is expected that the new women's lids will replace the formerly traditional pom-poms.

Members of Kwama and Skull and Dagger, sophomore service honoraries, took charge of the sales, including house deliveries of large orders.

Near-Campus Jobs Available For Students

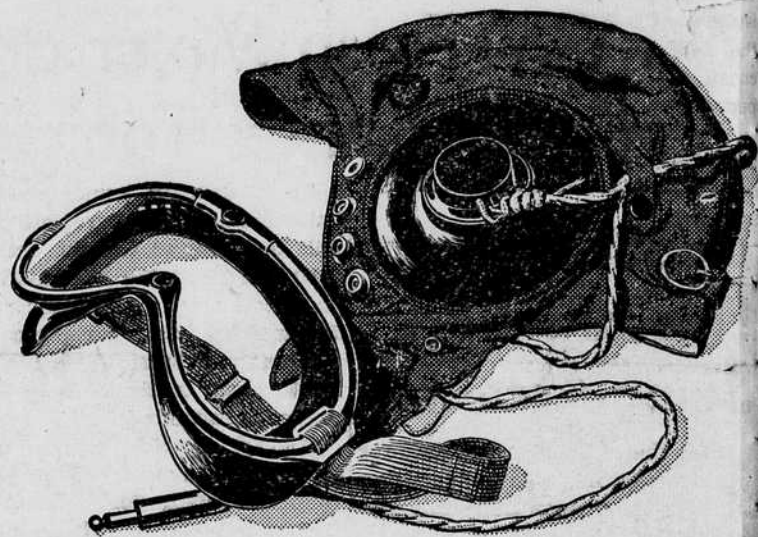

There are more jobs than applicants in some fields of employment on or near the campus, with an especially ample supply of openings in housework in return for room and board, Karl Onthank, associate director of student affairs, said yesterday.

Some of the household positions which are opportunities for students who have been unable to secure housing for fall term, also offer extra cash, Onthank said.

The associate director advised students who wish to work part-time while attending school to apply at the student employment service at the YMCA building soon. Jobs offered cover a wide range, he said.

Miss Shirley Sylvester, a graduate of the University, has returned to serve as head of the campus employment bureau, which is operated by the state employment service in cooperation with the University.

Miss Sylvester succeeds Mrs. Lucile Parsons, who resigned this summer.

"U. S. AIR FORCE"

is more than a new name

Never before in its history has your Air Force faced heavier responsibilities. First line of defense in a still unsettled world, the Air Force must continue to grow and be ready for instant action.

Today, only the best fitted prospects are being accepted by the Air Force. But young men who measure up will have unequalled opportunities.

The world's finest pilot training is open to single men, 20 to 26½ years old, who have completed at least half the credits for a college degree, or are able to pass an equivalent examination. They can win their wings with the Aviation Cadets!

Veterans of the Armed Forces who are qualified in one of 300 skills and trades may re-enter the Service in advanced non-commissioned Air Force grades, depending on their previous training and experience.

And for officers and men alike, in today's growing Air Force, there is literally no limit to the possibilities of advancement in a great career.

On Air Force Day, September 18, get to know your Air Force better. Visit Air Force exhibits. Talk to Air Force men and you'll understand their enthusiasm—their alertness and competence—their pride in the comradeship and the fine traditions of the Service.
