Mary had
a little Lamb,
And as they went to school;
They walked to the **LEFT**-
Instead of the right,
For that's the **SAFETY RULE**.

Even Mary's lamb can learn that easy safety rule! Best rule of all—for school children and everyone else—is: *Don't* walk on the highway. But if you must, then walk to the left, *facing* oncoming cars. Your chances of avoiding accident are three times better when you observe this rule.

Use special care at night and when roads are slippery. Even at moderate driving speeds, motorists often can't see pedestrians in time to stop. At 40 miles an hour, a safe stopping distance may be as much as 164 feet—much more at higher speeds.

When you walk on the highway, your life is *your* lookout. So—look out!
