

Chapman Film Shows Island

A movie entitled "Man of Aran" will be shown in room 207 Chapman tonight at 7, according to Don Hunter, head of audio-visual department.

The story tells of man's struggle against the sea and natural forces while trying to eke out a bare subsistence. The Aran islands are off the eastern coast of Ireland, and although it is only 15 hours from London, the inhabitants live in a primitive manner. The picture grew out of the director's experiences while living there for two years.

Counseling Service Missing Equipment

A brief case of special tools used in servicing the IBM machines in the counseling service in Emerald hall vanished last Friday night, according to J. S. Carlson, director of the service.

Carlson has requested that anyone with information regarding them contact him immediately.

House Puts Over Point; Author Gets Stuck With Tattoo Taboo

OLYMPIA, March 1—(AP)—The house jabbed the needle into a lot of vulnerable points today as it removed the skin from a bill prohibiting tattooing of minors but wound up after a half hour of horseplay with a skeleton it couldn't hide (no pun).

The bill authored by Rep. Charles Carroll was intended to be a serious matter but house members felt it offered a perfect target for their humor whilst relaxing tense and frayed nerves.

Rep. John L. O'Brien took the first jab. His amendment provided "That any person over 18 years of age may be tattooed not to exceed 9 inches deep nor 6 inches wide and it is further provided that the American Eagle shall always have preference in any needling process if such proposed design has had the prior approval of the legislative committee on un-American activities."

Asked if he was serious, O'Brien said "Certainly, just as serious as the bill should be taken—and I admit I think it's a bit stupid."

ISA Move Discussed

(Continued from page one)

resent individuality every independent student in political matters.

"In general, I think it is a progressive step in our efforts to break down social and class distinction on our campus."

ISA President Bob Davis had "no comment" to make concerning Thursday's meeting. He also refused to say whether he was opposed to the proposed amendment, even as amended with his help at the ISA meeting.

When asked the purpose of the constitutional committee in proposing the amendment, committee chairman Francis Linklater said:

"It is the duty of the ISA senate to work for the interests of the independent students in every way possible.

"We believe the USA is effectively serving the political interests of the independent students, therefore the ISA should officially retire from politics and support that organization."

Linklater said he thought the ISA meeting was "pretty exciting" and "very successful."

"Last night's meeting showed, I believe, that many independent students are vitally interested in the situation," he added.

According to the ISA constitution, the amendment must be voted on at the organization's next meeting, which has been set for Thursday evening.

The chair ruled the remark was in order inasmuch as O'Brien said the bill, not the author, was stupid.

A dozen more amendments were soon blazoned on the exposed surfaces of the measure, winding up with one by Rep. Paul Coughlin, Seattle Democrat, who was taking a swing at the commission-loving house, to wit:

"The prohibition of tattooing contained here in shall not apply to tattooing done by tattooers licensed by the Washington State Tattooing Commission, which commission shall consist of a board of 3 tattooers chosen by the governor from a list of 3 tattooers submitted to him by not more than 3 tattooers."

Relatives of Balloon Victims Get Damages

WASHINGTON, March 1—(AP)—Over army objections, the house passed today a bill to pay \$20,000 damages to relatives of six persons killed near Bly, Ore., by a Japanese balloon bomb during the war.

The deaths occurred on March 5, 1945 when members of a Sunday school class came across the grounded balloon and its unexploded bomb while on a fishing trip. Five children and the wife of the minister died when they tugged at the contrivance.

Wartime censorship banned any mention of the balloon-borne bombs at the time.

YMCA Meets

The YMCA will hold its usual Wednesday meeting at 12 noon today.

Wesley Jive Night

Niccum—campus cal wesly ...WW Wesley house will have Jive night tonight beginning at 9:30. All students are welcome.
