

Everything but the Back Seat

Libe Addition Parallels New Autos

By Bill Clothier

The addition to the campus library shows every indication of aping the current trends established by post-war cars.

The Studebaker influence will be plainly seen in the great expanse of glass stretching around the ultra-modern edifice. The windows will extend in an unbroken line forward and aft, port and starboard, with only steel supports intersecting the panes of glass.

The sly hand of the Nash-Kelvinator people will show in the construction of the building itself. All steel it will be, an interlocked, rigidly braced, self contained unit of tremendous strength. No brick or

wood material will be used. The weather eye principle has been adopted for complete and carefree ventilation sans draft and dust.

The impact of Buick's dynaflo drive has truly revolutionized the transportation facilities inside the building. Buick dispensed with a clutch. The library designers struck out the stairs. Students and permanent personnel will glide from the ground floor to the top floor in a silken-smooth, unbroken surge of elevator power. Each person will be required to bring his own power unit to negotiate the ramps.

The excavation is nearly complete. Provided no unforeseen exigencies develop, the new wing will

be finished by next spring. It will rest on a blue rock foundation.

Due to the new wing's unique design it lends itself to speedy and economical construction.

It is the first such building to be built in Oregon, and is expected to prove very lasting and durable.

The new addition will increase the space of the library by four-fifths of the present library floor space.

Friendly House

Friendly house will have a married couples' pot luck Saturday evening at 6:30. After dinner the group will participate in folk and square dancing. All married couples and their families are welcome.

Washke on Committee

Dr. Paul R. Washke, professor of physical education, will serve on the 1949 nominating committee of the Northwest District of the American Association for Health, Physical Education, and Recreation. He received word of his selection from Spencer Reeves, president of the professional group, this week. Elections will be held in Portland April 15.

How Youth Is Lost

(Continued from page six) ey. That night she tossed out Pinky, her faithful elephant, and went to sleep hugging her new rabbit.

In one day Nina had won a boy's heart, had her first haircut and abandoned an old toy. She would never be so young again. And neither would her godfather.

Breakfast Tickets Are Still Available

Last minute junior-senior breakfast ticket purchases can be made today at the YMCA bungalow.

The annual affair will be held Sunday morning from 9:15 to 10:30 in the Veterans Memorial building, 1626 Willamette street.

Tickets are priced at 95 cents apiece.

Prof to Visit Campus

Sidney Ross, who will visit the University of Oregon chemistry department this summer, is chairman elect of the Colloid division of the American Chemical society.

Professor Ross will come to Oregon from Rensselaer Polytechnical Institute in Troy, New York.

Always Buy CHESTERFIELD

"There is nothing like a MILD, cool smoke - that's why I smoke Chesterfields."
