

Out of the Bottle...

By Cork

(Ed. Note: While staggering down Metal Receptacle Alley (Tin Pan to the real gone guys), trying to walk off a benzedrine binge, I chanced to stumble over the prone form of an old musician friend of mine. He is Dr. Fredrick Q. Yungstauff, eminent Viennese conductor (Southern Pacific), composer of lewd lyrics, and advocate of bebop on the left-handed zither. He has also discovered such prominent performers as "Charley Potato" and his Four Mashers," "Clyde Bannana and his bunch for the music with appeal," and "Ned Nostri and his nine noses." Dr. Yungstauff's article, telling college students about how to have fun to music, follows.)

"First thing on this jam session, I'm going to tell all of you cats what vout music really is. BE-BOP. All of you rhythm reapers got that? OK! Now, bop is first of all characterized by flatted fifths (the average music monger can usually flatten a fifth in a couple of hours). It also has a great deal of syncopation. "Syncopation" is defined as "an erratic movement from bar to bar." Sharps and flats are seldom used in bop, except when "beautiful music" is made in a sharp flat.

"Don't feel bad if you don't think bop is scaddy-boo. The reason that bop doesn't send you may be that you are too weak to go yourself. But if you think it is pretty vout-o-rini, then you're with it

("with it" being a musical term meaning "you can't get along without it.")

"Now, most bop beavers recognize the fact that there are other kinds of music and they all agree "What of it?" Such classical compositions as "I Was Working on a Railroad in No Miners" by that cool as coal clarinetist, Johnny L. Lewis, cannot be overlooked. Nor can we overlook "The Vulgar Boatman" by Rossellini. However, I want to tip you off to some stuff that is really ready (no phone numbers, please.)

"Heard a nifty little canary named June Misty give out with some really racy boogie number entitled "Laura, You're the Face on the Barroom Floor." She is presently tied up with "Stan Kitten and his Cat," who are recording for Dekker.

"The Columbia River Recording Co. recently grooved a plenty platter featuring Eli Witney, inventor of the "gin mill," in a solo on the southpaw zither. It is called "Father Was a Musician, Officer So Please Give Him a Cell With 32 Bars."

"The latest thing out in the way of western bop is a new innovation called "The Chinese Sorprano" by Spade Cooley. Also, Charley Barnwett may swing over to western bop if the rumor is true that he signed up Roy Nocuff to play first bass.

Sosh Session

By JACK LANDRUD

Greetings, gossip hounds and languishing lovers! This dainty little department of our strictly non-partisan sheet is back in service again after laying off three weeks to dig up a new author. My two predecessors are recuperating from mild libel and fraud suits caused by burning too many ears—but here's to more singed lobes in the interests of increasing circulation.

Spring term weather has brought a bevy of coke-dates, picnics, and soshing in general and "pins are busting out all over."

Seems that ATO Dick Portwood has re-established himself with Kappa Georgie Balaam and their pins are now linked. Also, looking starry-eyed as she wears Ed Peterson's Lambda Chi brass is Theta Frances Baum.

Haveya spied the rewlly painted bench on the Pi Phi front porch? The story goes that ATO freshmen felt an artistic urge, and, persuaded by their upperclassmen, carried out the project with rainbow results.

ChiO Dee Kletzing is sorrowfully putting in time while Delt Chet McRobert heals his wounds in the infirmary. The Phi Delt cousin combination of Jim and Matt Vranizan are going out of their way to see that ChiO's Nonny Lageson and Joan Murphy, respectively, don't suffer from too much spare time.

Down Millrace way the Gammafoos seem to have magnetized many of the local youths as are evidenced by the following new twosomes sporting gift jewelry: Jessie Bennett and Sigma Nu Dick Belt, Janet Easterday and Chi Psi Ned Peck, Barbara Buddenhagen.. and Tau Ramsey Fendall, and Gwen Roberts and Fiji Stan Carlson. Going a step further is Lorelee Warnock who recently announced her engagement to Jim Welch.

Fran Baldwin of ADPi now boasts the badge of DU Lou Hedlund. In similar situations are ZTA Jo White and SAE Dick Sawyer, Sigma Kappa Fran Robson and PKA Al McAlear, Alflee Dottie Dreyer and Sig Ep Bob King, and AChiO Jean Miller and Phi Psi Don Kressee.

To the Engaged Department may be added the duets composed of Theta Corky Hunter and footballer Johnny McKay, Theta Renee Johns and Beta Jim Cusick, and Carson's Pat Wenke and former Webfoot Dick Reiner.

Wedding bells sounded recently for ADPi Hallie Stirling and Sig Ep Wayne Roecker.

CHUCKLE OF THE WEEK: When Theta Leslie Tooze paid off an election bet by tagging a long smackeroo onto Emerald Editor Don Smith who blushed beautifully.

Another officially ringed couple are AChiO Joanie MacPherson and Chi Psi Chuck Rufner.

Mad screams have been heard from the Pi Phi abode recently to herald the capture of Roger Marsh's Beta shield by Janet "Bangs" Weatherall, a similar translocation between Ann Henderson and Phi Psi Doug Carter, and Ann Gouge who "inhaled" Ray "Lung's" Beta pin.

Kappa Sig Dick Bryant made a big impression at the Alpha Phi dorm by dispatching a dozen roses to Dottie Dugan to celebrate one year of steady hand holding.

From Hendricks Hall comes the word that Ernestine Schuberg is engaged to Aggie Dave Fransisco, while Rebec House reports similar doings in double as in the cases of Barbara Murphy and Donald Inmann, and Bobbie McKeown and Navy Lieutenant Francis Wycoff.

Gremlin Army Hits Quad; Reporter Gets Exclusive

By KEN METZLER

The reason your alarm clock didn't ring this morning, it has just been learned from highly unauthoritative sources, is because 46,789 gremlins have invaded the campus.

This information comes from Gregory, high exalted commander of the local invasion forces, who was interviewed exclusively by an Emerald reporter yesterday.

Before we could interview a gremlin we had to learn more about them. They are the instigators of such ignoble deeds as ringing your typewriter bell before you come to the end of the line, thereby spoiling that term paper that should have been in yesterday and absolutely will not be accepted later than tomorrow morning at 8. Either that or keeping the bell from ringing at all.

Although it has never been proved, it's rumored that teams of gremlins often are the main force in the short sheeting of beds. They're also not adverse to placing boards, bottles, tacks, itching powder, and water balloons in beds.

Some 70 gremlins worked a solid 12 hours in clogging the drain which led to the establishment of the large pool of water between Condon and Taylor's.

Anyhow, getting back to Gregory, we asked him why in the world he doesn't behave himself. After all, we said, a joke is a joke is a joke, but this is going too far.

"Well," he said, "can we help it if human beings are so vulnerable

to someone with a little imagination?"

We told him we'd like to see a gremlin in action. Wouldn't he please pull some tricks so we can observe some techniques?

"Sure. You see 'em tearing down the extension building across the street?"

"Yes," we said, "that's where they are going to build the new science building."

"Well, we'll see about that. Now
