with the tip-tilted nose admitted, dimpling. She has never been outside of Oregon except for a trip across the Columbia River into Washington.

Swimming, dancing, and horseback riding at her friends' ranches are numbered among Betty's hobbies. She looks forward to the Pendleton Round-Up each year—especially the Happy Canyon night pageant, which she claims is the most interesting part of the show.

Betty Lou's enthusiastic about her new job as Alpha Chi Omega fire warden—but bemoans the fact that she can't celebrate her birthday with her sorority sisters' be-

cause she's a real "Yankee Doodle Dandy"—born on the Fourth of July.

## Jackie Lewis

from people who had been traveling. She herself would like to visit such places as Alta, Utah, Sun Valley, Idaho; and Switzerland—for the skiing, of course.

"I really like university life, although it took me quite a while to get used to it," said Jackie, whose activities have included work on flying speeches for the Senior Ball and the Whiskerino. She also was a hostess at the Dad's Day Luncheon.

The lively Little Captain doesn't know yet what she wants to plan for the future. She used to think

she wanted to be a nurse, but after working as a nurse's aide at Sacred Heart Hospital one summer, she decided that she "couldn't stand to see people suffering all the time."

"I'm in BA right now, but I'm going to change it," she stated.

One phase of university life which failed to win Jackie's approval is registration. Her comment was, "It's just horrible!"

However, she thinks being a Little Captain is very exciting. She said, "I could hardly believe it when they called me."

Of course it's common knowledge that a Ubangi is the only person in the world who can seal a letter with a kiss after it's in the mailbox.

European trade on the one hand, and still revive private enterprise on the other.

Another difficulty involved east-west trade, Gange said. "Western European countries were not economically self-sufficient, and were traditionally dependent on interchange with countries now behind the iron curtain. Because of fear of indirectly strengthening these communist-dominated countries, a ban was laid on all east-west trade."
