

Wave Career Pay Good, Says Naval Officer

A well-paid career may be found in the WAVE officer program, according to Lieut. Dorothy Field, procurement officer for the 13th Naval District.

Lieutenant Field was on campus yesterday to interview senior women interested in appointments as WAVE ensigns.

The basic requirement for WAVE commissions is a college degree, but seniors may apply now for appointment after graduation, Lieutenant Field reported. In addition to possessing a degree, applicants must pass physical, moral, and mental requirements. Only unmarried women, from 21-25 years of age are eligible.

Women selected for commissions in the 13th Naval District will be sent to Newport, R.I., for a five-month training period. While in training they are considered officers and will receive an Ensign's salary of \$213.75 monthly.

After the indoctrination course, they will be ordered to various naval bases for work in personnel, public relations, training, publications, intelligence, communications, logistics, operations, and similar duties. Overseas duty is assigned on a rotation basis.

WAVE officers receive all the benefits and privileges extended to officers of the regular Navy, according to Lieutenant Field. This includes retirement, tours of duty, and special training.

Further information may be obtained by writing to Lieut. Field, Office of Naval Officer Procurement, Federal Building, Seattle, Wash.

'Booth's Brutus' Set for Broadcast On KOAC Today

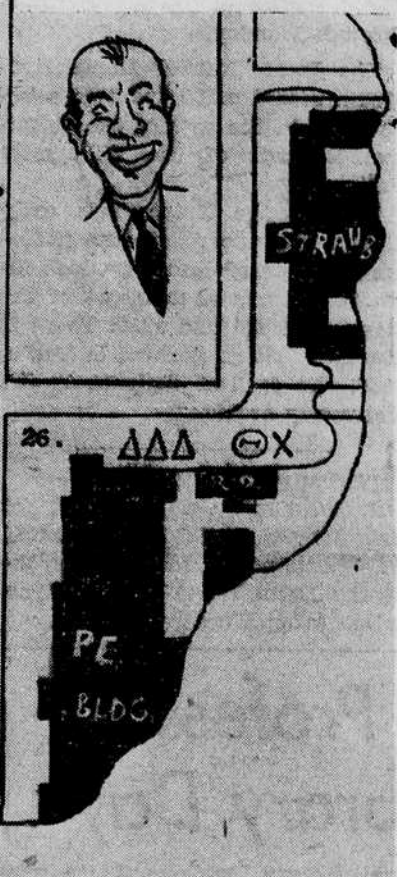

"Booth's Brutus," a play within a play, will be the dramatic presentation of the Radio Workshop at 4:30 p.m. today over KOAC.

Originally produced by the WPA Radio Workshop, "Booth's Brutus" is a description of the play "Brutus" as it was performed by Booth the Elder, one of America's first great actors and an ancestor of John Wilkes Booth.

The play concerns the later life of Brutus, when he rises to high position on the Roman government following the assassination of Caesar.

In a revolt against the ruler, Brutus's son is captured. He is brought before his father, charged with being one of the revolutionists. Brutus finds himself charged with his son's fate. The scene in which Brutus makes his choice was acclaimed as one of the high spots in Booth's career.
