...the right to be ready!

Until world peace is assured, our nation must be ever ready to protect itself and to stop aggression.

To do this, our peacetime defense forces must be stronger than ever.

In terms of the taxes we all pay, it costs less to train and maintain a strong force of military reservists.

Since 1775, this country has relied, in time of war, on its citizen defenders. In the past we have had time to train; in the future we may not.

The citizen who devotes his time and energy to reserve training in this community, and in communities throughout the land, asks only "the right to be ready."
