

# Presence of SDX At U.O. No Joke, Says BMOC Prexy

"SDX does exist on this campus, and the present effort to treat it as a joke is the lowest possible blow to good student journalism."

That was the opinion of BMOC President Johnny Arthur in releasing the names of the men of Sigma Delta Chi, outlawed, undercover, illegal journalism fraternity.

Arthur's comment was aimed chiefly at the present flood of banner lines, mastheads, headlines, and efforts of unofficial and highly unauthoritative spokesmen to make light of the outlawed secret group known as Sigma Delta Chi.

In releasing the names Arthur commented that "these 25 notorious infamous men must not be dealt with lightly. Severe punishment must be handed out to those who seek to control journalism on the campus."

### "Shocking" Facts

"I could give you some facts that would shock you," Arthur screamed. "In fact I will give you some facts that will shock you."

"Nearly every publication on the campus today is thoroughly infiltrated with members of SDX—yes even some of the top positions are held by SDX members."

"Look at the Emerald. Even the editor, whose name is (name withheld by editor) is a member."

### Names Listed

"It pleases me greatly to release these names," Arthur said with a sadistic gleam in his eye. "I've waited a long time for this. Many years of work by students and fa-

# Campus SEX Gets Approval

The existence of SEX on the University of Oregon campus has been sanctioned by the Office of Student Affairs, Director Donald M. Shoeshine, disclosed Wednesday.

"There has been a great need for such a thing as this at Oregon, and students have been clamoring for recognition for nigh on to sixty-nine minutes," Mr. Shoeshine said.

SEX is co-educational, allowing even people to participate. The meetings are so designed as to advance the latest theories, practices, and records. Anyone having a 2.00 GPA last term, and an accumulative GPA of 2.00 or better may petition for membership. Students must be prepared to supply their own equipment.

SEX is nationally recognized and has entered many campuses throughout the United States. Its existence has been lauded by many educators as "having admirable moral and spiritual qualities that provide an excellent outlet for severe scholastic discipline." (TRANSLATION: It's good for those who have been hitting the books too much.)

Sigma Epsilon Chi is the only national fraternity for phornograph record collectors. The first meeting of the organization has been called in the Douglas Room of the University Library at 6:30, Wednesday, May 31. The program for the evening will include the Overture to Eurynother... and Beaforen's Ninth Symphony for the bobsled and three tom-cats.

# Girl on Campus Attacked

Gwendolyn Guggleglick suffered an appendicitis attack Wednesday during the noon hour on the quad in front of the library.

She was immediately rushed to the University hospital where she was given a penicillin shot and released.

Her appendix ruptured while she was struggling back to her dormitory.

"We are not concerned with students once they are released," was the only comment from hospital heads.

# K-I-L-L Murders Pres. B. K. Sunburn

Twenty five University students Wednesday were put on probation for the voluntary murder of President Barry K. Sunburn and other assorted members of the Oregon faculty

The students, member of a secret subversive society, Kappa Iota Lambda Lambda (KILL), may not hold any elective AS-VO offices in the future.

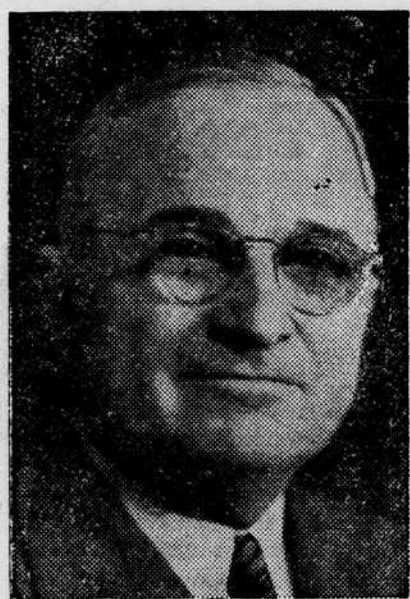

However, Donald Shoeshine, director of Student Affairs, said that this restriction may be waived in certain cases, although the U.O., he explained, does not treat lightly the serious implications of the case.

"In the future," Shoeshine asserted, "if this mass manslaughter is repeated the students will be subject to possible expulsion."

Funeral services will be held Saturday with members of KILL acting as honorary pallbearers.

## Truman Group Wins as Castle Jazz Dropped

Larry Truman, his piano and his orchestra, have been signed to play for the annual Motor Boat Ball this year, a spokesman for the honorary said yesterday.

Former announcement that the Castle Jazz Band would perform at the affair aroused so much adverse comment from campus conservatives that the select senior women felt obliged to make the change.

Truman, who comes from a long line of musicians, broke into the big-time a decade ago in Kansas City when he gave up his job in a clothing store to play at the Muelbach Hotel. From there he

If Cal, Southern Cal, Stanford, and Pepperdine can do it, why oh why can't we?

The question was answered with a forthright "no comment" yesterday when Dean of Girls Toldya Flickham announced that henceforth, "if you'll all promise to be good little boys and girls, and not get into any trouble, closing hours for women's organizations will be 3 o'clock both Friday and Saturday."

"After all, if you want these kiddies to act like adults, one must treat them as if they were, mustn't one?" the kindly dean inquired.

No one answered, so she went on.

"We do not see how anyone can but fail to doubt that no University of Oregon student can be considered anything but not unadult," she gurgled, "so we are changing closing hours to 3 o'clock."

Student reaction was varied. (Please turn to page 8)

## Late News

Gretchen Grondahl was elected Keeper of the Church Key of Theta Sigma Phi, woman's journalistic honorary, at the annual waffle iron as a result of a pressuring of a small group consisting of 3.2% members.

Those members were:

Phyllis Kohlmeier, Ruby Frazier, Elizabeth (Liz) Lagomarsino, Donna Kletzing Addison and Margaret Reid.

All the contacts were deliriously happy about the election.

The staff for today's edition is extremely sorry that these lines had to go in up-side-down. The mistake could not be rectified since when the error was discovered the page forms were all locked up.

# Dogfall Cements Relations

At a recent Inter-Cell Council meeting, Viril S. Dogfall, Director of Men's Affairs with Women, presented a 93 point program which he said might help Cell presidents cement relationships both inside and outside living organizations.

Dogfall said the rules would not be binding in any way, either now or in the future.

Since the rules are only suggested, expulsion from school for

Cell presidents is the token disciplinary action he promised for those disregarding his program. If the University had any policy regarding the suggested rules, the insurgents would be reprimanded and forced to sign a confession.

The rules include:  
1. Women not allowed in undergraduate sleeping porches unless accompanied by someone.  
2. Guests must be dingerprinted

and have a blood test taken at the DOMAWW's office before entering cell-bloc.

3. No Republicans or Democrats allowed to share the same sleeping porch.

4. Member of subversive organizations must petition via channels for lower bunks.

5. No dirty thoughts allowed in member's rooms.

6. Students attending dances in

the cells must be dressed, either formally or informally.

7. Waterbags must be inspected and stamped with the great Seal of DOMAWW.

8. Whiskey bottles with notes will not be thrown through anyone's window, unless the bottle is full and the note is glued on the outside.
