

Sophomore YW Dinner Meet

Sophomore women will meet Tuesday for dinner and entertainment at the YWCA headquarters in Gerlinger.

The 5:30 p. m. affair is the first in a series of dinners planned by the Y sophomore commission. Francis Gillmore, Kwama president, will speak.

Representatives in each house should collect 25 cents for each ticket and pick up the tickets from Lois Greenwood, YWCA director, at Gerlinger.

"This will be an opportunity for all the girls to get together again

after the summer," said Mary Alice Baker, commission chairman, "and I want especially to invite sophomore transfers to come and get acquainted with their classmates and with the Y."

Speech Professor Returns

Returning to the University speech department, D. Glenn Starlin, assistant professor of speech, will direct the new radio studios.

Starlin has been working at the University of Iowa the past year for his doctorate.

Idaho Invites U of O To Mosco

Oregon students have been invited to attend and participate in the Homecoming of the University of Idaho, Oct. 14, according to a letter received by ASUO President Barry Mountain.

The weekend will consist of a parade Saturday morning followed by the game between Oregon and Idaho in the afternoon. Open house and a Homecoming dance are planned in the evening.

The Idaho student body suggested that Oregon students participate in the weekend of activities by entering a band or float in the

parade, or have a representative group in halftime activities.

"Participation of Oregon students will give support to team, and will also add spirit to the rivalry between schools in the Northern Division which has been so prevalent in the past," the letter states.

Some of the big guns are silenced when the war ends; others begin work on their memoirs.

When in doubt (also when in a bind) do the friendliest thing.

When accident taps a worker on the shoulder and calls "Time Out," it may be for a day, a week, a month—or forever!

Every year time runs out for some 16,000 workers, killed in action on their jobs. 80,000 are so severely injured that they may never work again. Two million are injured in greater or lesser degree. The cost to workers and industry—\$4,500,000,000 annually. Over eighteen and a half million dollars every working day.

When you're inclined to be a bit careless, a little too tired to be cautious, remember, every 32 minutes some worker gets "tapped for life," every 16 seconds one is injured, temporarily or permanently. Know your job, be alert while on it. Vehicle accidents are the No. 1 killers and cause most permanent disabilities. Machinery is the principal source for partially disabling injuries, while the handling of objects knocks out more workers temporarily. Falls are occurring continuously, in all kinds of work, and cause anything from a slight injury to death.

So watch yourself at work. Think safely—use your head to save your job—maybe your life!
