

U.S. Marines Push Slowly Northward

Compiled by John Barton
From the wires of Associated Press

South Korean army forces are continuing to drive beyond the 38th parallel into Communist North Korea today. The Korean Republic's third division has gone 30 miles beyond the 38th. In the Seoul area, United States Marines are still pushing slowly northward, wiping out pockets of strong enemy resistance.

Superforts Smashed. . .

... Pyongyang, capital of North Korea, again yesterday. Other United Nations planes are scattering millions of leaflets bearing General MacArthur's surrender message to the Reds. In Peiping, China, Communist China's Premier Chou En-Lau says China will not "tolerate seeing her neighbors being savagely invaded by imperialists."

And in Lake Success, N.Y., India's U.N. delegation is reported to have taken a serious view of the China Red statement. The U.N. is still studying an eight-nation plan of unification for all Korea.

Russian-made Mines. . .

... have damaged two U. S. Navy destroyers in Korean waters. The Navy says several floating mines—all of Russian manufacture—have been sighted recently in Korean waters. The ships were the Brush, struck last Wednesday, and the Mansfield, damaged Saturday, both made it to the Japanese port of Sasebo under their own power.

Killed when the destroyer Brush struck the floating mine was Richard D. Woolley of Eugene. Ten other men also died in the Brush explosion.

Russia's UN Delegate. . .

... Andrei Y. Vishinsky says the UN resolution favoring a unified Korea (abolishing the 38th parallel) is a sign of "direct aggression" against Koreans. It only covers up for American aggression, according to the Red minister.

And before the day was over, Vishinsky introduced his own plans for Korean peace—one that calls for an immediate cease fire order and withdrawal of all U.N. troops.

Canada's Dollar. . .

... has been cut loose to find its own level on the world market. It has gained nearly six cents in terms of U.S. dollars in world markets. In New York, most quotations put the Canuck monetary unit at 93½ cents to one American dollar. It is slightly higher in Canadian trading centers.

Spokane postmasters have been ordered to issue no more money orders payable in Canada until further notice, apparently because of the loose Canadian dollars.

Britain's Treasury Chief. . .

... will be in the U.S. and Canada early next week to "discuss mutual economic problems." He's Hugh Gaitskell, now acting treasury chief. And rumors of course are circulating that Britain may soon raise the dollar value of its pound. It was devaluated last fall.

Soviet Union's Stalin. . .

... acting as prime minister (one of his titles), has received an appeal addressed to himself and the U.N. from 12 Chinese who say they represent 40,000 countrymen in Formosa.

The appeal reportedly asks that foreign armed forces be withdrawn from Formosa and that any proposal for U.N. trusteeship for Formosa be rejected. The note objected to any type of separation from China for Formosa.

In London, Russian sources are discounting charges by the U. S., Britain and France that many German prisoners of war are still being held by the Soviet Union. "Absolutely unfounded," say the Reds.

The U. S. Supreme Court. . .

... opened a new term yesterday—a term which is figured to include decisions on important national problems. Principal interest in the new term centers on legal issues involved in Communist activities and racial relations in this country.

The Atomic Energy commission has a new commissioner today. He's Dr. Thomas Keith Glennan. He was sworn in yesterday to bring the commission up to its five-member strength for the first time in almost eight months. Glennan is on leave from the Case Institute of Technology in Cleveland.

Harry Bridges. . .

... in-again-out-again longshore union boss, will be in Seattle early next week to start a series of meetings which will decide points of policy for the International Longshoremen's and Warehousemen's union. The ILWU is now a separate organization. It was expelled from the CIO recently on charges of following the Communist party line.

Elsewhere In Labor. . .

... the morning Post-Gazette of Pittsburgh failed to publish yesterday after AFL mailers struck against the city's three daily papers. Afternoon papers in Pittsburgh, the Sun-Telegraph and Press, also closed down, printing only a few copies. Failure of the union and management to reach a new contract agreement was blamed for the strike.

Westinghouse Electric corporation has granted 50,000 employees a 10 cent hourly pay increase and better pension benefits. More than 4,000 AFL cigar workers at Tampa, Fla., are deciding whether to strike for a wage hike of about 20 cents an hour. In Philadelphia, hotel workers (CIO) have agreed not to strike with baseball's world series coming up there this week.

Inquiring Reporter

Korean Problem More Important Than SU Coffee

By Helen Jackson

Before yours truly had a chance to pop the question to the first of today's interviewed, a SU coffee bar patron came rushing up and said "You are the Inquiring Reporter, aren't you?" After being assured that he was right, he continued, "Well, I want to ask you a question. Why, oh why, do we have a \$250,-000,000 building where you can't buy a cup of coffee without having to wait 180 minutes before you get it? Why don't they raise the price to ten cents a cup and hire some additional help?"

Today's question, however, was concerned with a matter slightly farther away and, to put it mildly, of greater importance, at least nationally. "What do you think of the Korean situation?" was not an easy question to answer.

Don Onthank—junior in business administration—"I think the situation has been greatly relieved and I'm relieved also! Frankly, I don't know nearly as much as the state department, but I'd like to see the U.N. go ahead and clean out the whole Republic—the U.S. troops as well as the South Koreans as part of the United Nations forces."

Barbara Wiebke—sophomore in liberal arts—"Frankly I'm too busy with classes to pay too much attention! I wish there wasn't any Korean situation."

Walt Bush—sophomore pre-dentistry student—"I got my draft call Friday so I should have some thoughts, but they wouldn't be printable."

Carolyn Louise Welch—"It's quite a situation—but I don't see how anybody could have any constructive thoughts knowing as little as they do."

Bob Hazelett—junior in education—"It looks a lot better than it did. I was as surprised as everybody that they crossed the 38th parallel so soon. It seemed like a miracle. I think the Americans should stay where they are but let the South Koreans go on past the 38th parallel and clean up all of Korea."

Barbara Plant—junior in art education—"I wish they'd hurry up and get it over with before all the men leave. It sure louses things up."

YWCA Tickets On Sale

A limited number of tickets for the YWCA sophomore commission dinner at 5:30 p. m. tonight in Gerlinger Hall, will be on sale at the door, said Mary Alice Baker, commission chairman.

Francis Gillmore, Kwama president, will speak.

This is the first in a series of dinners sponsored by the YWCA sophomore commission.

News Staff To Meet

An important meeting of the Emerald news staff will be held at 7:30 p. m. tonight in 105 Journalism.

This will be the first staff meeting of the year. All persons covering beats and holding other staff positions are requested to attend, or inform Norm Anderson, news editor if unable to do so.
