

# Fifth Atrocity Note Sent by MacArthur

by Merle Mass

(Compiled from the wires of Associated Press)

General MacArthur has again alerted the United Nations to atrocities committed by the North Korean Communists. This was MacArthur's fifth report to the Security Council.

"It becomes necessary to report again continued inhumane acts on the part of the North Korean killings," the general said.

His report mainly concerned the treatment of captured troops. However, an official allied estimate indicates that about 25,000 men, women and children have been murdered along the Red path back to the North. Some of these victims were prisoners of war, but most of them were civilians who had been judged anti-communist.

In most cases the bodies were dumped into mass graves, but others were left exposed in the communists hasty retreat.

## The United Nation's...

... Assembly is expected to give the implied permission for the invasion of North Korea by the end of the week. The plan sponsored by Britain, Australia, Brazil, Cuba, The Netherlands, Norway, Pakistan and the Philippines, was adopted by the Political Committee Wednesday by a vote of 47 to 5.

Also from UN headquarters comes word that Egypt has offered to contribute an army of 1,000,000 to 2,000,000 men as a part of a permanent international force, if other countries, including the United States will supply the arms and equipment. The offer was understood to have been made on the condition that British troops are withdrawn from Egyptian soil.

## South Korean Forces...

... have captured the North Korean town of Changjon, which is about 60 miles north of the 38th parallel. It was an all-day fight during which the South Korean third division beat the strongest resistance yet encountered north of the border.

Meantime, 175,000 American and allied troops massed along the parallel with UN approval of invasion expected soon. The North Korea regime at Pyongyang continued to ignore the surrender ultimatum broadcast to it last Sunday.

## Brazil Election Returns...

... are coming in slowly and former dictator Getulio Vargas has a two to one lead, for the Brazilian presidency. The election was held Tuesday, but only a fraction of the votes had been counted.

The slow counting means that most Brazilians won't know who will succeed outgoing President Eurico Gaspar Dutra before several weeks. It is believed that close to 7,700,000 ballots were cast, and to date Vargas has 125,349.

## Austrian Communists...

... were still demonstrating in Vienna Thursday by halting all rail traffic into and out of Vienna for three hours. Tracks on the East-West line from the American occupation zone into Vienna were the first ones cleared of road blocks.

A flying squad of several hundred communists piled railway ties across the tracks of that line at St. Poelten, in the Russian Zone, west of Vienna. Other lines were blocked the same way, with agitators standing guard over the barricades at many points.

## England's Foreign Secretary...

... Ernest Bevin, although still weak from a recent illness, found strength enough to slap down the ears of the far-left pacifists in the Labor party.

Speaking before the annual conference of the ruling Labor party, most of his talk was aimed at defeating a left-wing resolution. This resolution urges the government to seek new talks with Russia, outlaw the atom bomb, and Britain's dependence on American aid by 1952, and call a Big-Five conference at once to increase East-West trade.

In voting following the speech Bevin won overwhelming support, and the party delegates agreed almost 4-1 to defeat the measure. This almost solid defeat assures its defeat.

## Korean Wounded...

... arrived in Tacoma Thursday by water transport. The ship unloaded 191 fighting men, wounded in battle, and the bodies of 22 others who gave their lives. This was the first water movement of Korean victims. Previously those injured were brought to the States by plane.

As soon as they were debarked the injured were cared for by attendants of Madigan Army Hospital, where the men are to be sent. There were no families at the pier, but medical officials said close relatives of the men would be able to have a happy reunion after lunch.

## John L. Lewis...

... replied to President Truman's remark that he (the President) "wouldn't even appoint Lewis for dog-catcher," by saying the President couldn't appoint him dogcatcher because he could "ill afford to have more brains in the dog department than in the Department of State."

And if he were dog catcher, Lewis said, his first duty "would be to collect and impound the sad dogs, the intellectual poodle dogs and the pusillanimous pups which now infest our State Department."

## The Ford Strike...

... is losing momentum, and there is a back to work movement for the most part. The company threatened "serious disciplinary action" against striking employees who failed to return to their jobs in the steel rolling mills. If the walkout had continued it might have brought a shutdown of all Ford plants.

In West Coast labor the American Federation of Labor plans to seek wage increases for thousands of workers in west coast ship construction and repair yards. Rising costs of living are blamed for the desired increase. On July 1, the workers were granted a 6-cent hourly wage boost, which brought the minimum hourly scale up to \$1.81.

We wonder how many people already are saving old paper and rubbish to scatter around picnic grounds.

When after many battles past, Both tir'd with blows, make peace at last, What is it, after all, the people get? Why! taxes, widows, wooden legs, and debt—Moore.

Two things to remember if this happens to you.
