

Council States Positions Open On Rally Board

Four new Rally Board membership spots are on the block for the most able persons. The appointments will be made by the Executive Council through the regular petitioning procedure.

Petitions are available at the ASUO office. The deadline for them submitted is 5 p.m. Monday. Interviews will be held at 8:15 p.m. Monday in the Student Union Board Room.

The purpose of a larger board is to plan rallies farther in advance—possibly one year.

Freshmen and sophomores are especially desired for these new vacancies so that at least half of the board members will remain next year.

IRC Topic Red China

"The Possibility of U. S. Recognition of Red China" was the topic discussed by the International Relations Club at a meeting Wednesday evening in Gerlinger.

Leading the discussion was Henry B. Amers, junior in political science, who was introduced by president Claire Cordier.

Amers began his interpretation of the situation by stating two alternatives open to the U. S.: a de facto recognition of Mao Tse Tung's government as is now present, or admission of the communistic Chinese to the United Nations.

Chon En-Lai, foreign minister of the Chinese government, was quoted on his definition of the red policy in that country as being "A people's democratic dictatorship; although the term may seem to contradict itself, it can be clarified by saying that the people oppress other citizens to prevent revolution."

Following Amers' speech, an open discussion was held with much enthusiastic comment from students. One question raised was that of whether or not communist China would return or even acknowledge our recognition if we took such a step.

Miss Cordier put an end to arguments as the time for closing approached, but before adjourning the assembly voted on two resolutions: that the U. S. should favor non-recognition, and that the United Nations should admit Communist China. Both were approved.

College to Confer Degree on Norris

W. V. Norris, professor of physics, will receive a degree Friday from his former college, William Jewell College, near Kansas City, Mo.

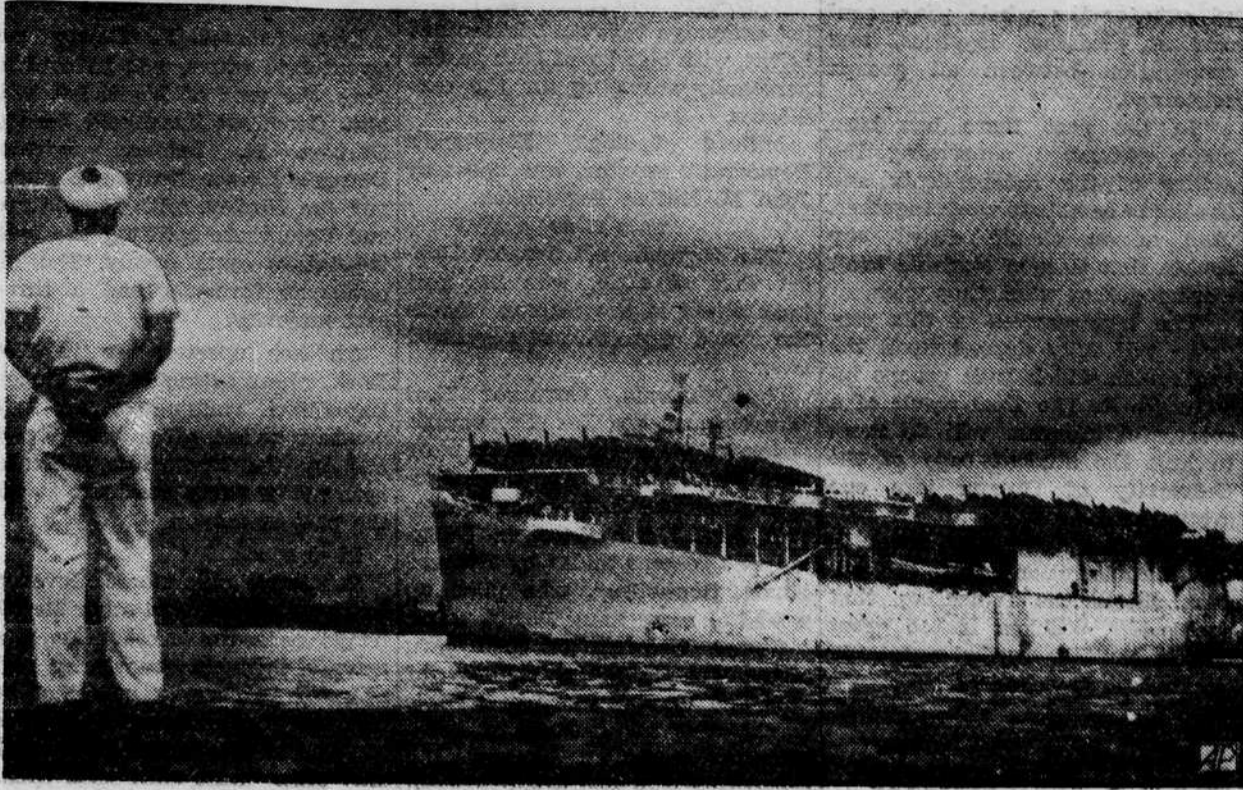

Every year, this school honors four distinguished alumni. Each of the four will speak before student groups from William Jewell while there.

Students to Give Talk

Foreign students Pierre Pasquie of France and Oskia Hossel of Germany will speak to the Eugene Chamber of Commerce at noon Friday at the Eugene Hotel on "How Eugene Looks to Me."

Ingebord Vedeler of Norway and Marie Parkkali of Finland will also attend the meeting as special guests. James D. Kline, foreign student adviser, will accompany the students.

The News in View

FORTY U. S. NAVY Hellicat fighter planes arrive in Saigon, French Indo-China on the French aircraft carrier Dixmude, along with replacement parts and munitions. The supplies are for the French forces fighting the guerrilla forces on the Communist-led Vietminh. The guerrillas have gained control of virtually all of the northern frontier and the French forces have sought increased aid from the U. S. to help combat the threat of Communism. (AP WIREPHOTO)

GENERAL LIN PIAO, one of the most successful commanders in the Communist victory over the Chinese Nationalists, now commands an estimated 600,000 Red troops in Manchuria and North China. These troops could be used to support Chinese Communists now fighting in North Korea. (AP WIREPHOTO)

Professors Attend Meet

Three professors from the University of Oregon will attend a meeting of the American Association of Physics Teachers at Pullman, Washington, this weekend.

The professors are Shang-yi Ch'en, graduate assistant in physics, Francis Dart, professor of physics, and R. T. Ellickson, head of the physics dept.

Your Uncle Sam may cut the cigar tax, but millions will continue to go up in smoke.

A CHINESE COMMUNIST prisoner is questioned by Maj. Gen. Edward E. Almond (second from right), commander of U. S. Tenth Corps, through an interpreter (left) at the Korean front north of Hamhung. The prisoner, wounded in battle, wears head bandage. Another Chinese Red stands at right. The prisoners reported they had been in Korea two months, after recruiting in Mukden and had been defending Changjin reservoir. (AP WIREPHOTO)

Huge Machines Transform Lot

The fellow sitting in the middle of that noisy, orange contraction pushing large and small mounds of dirt around and even loading a few of them into trucks in the area south of the Student Union is a vanguard.

A vanguard in this case is a member of a campus crew who will eventually transpose the property bounded by Onyx, University, and 15th Sts., and the SU into a parking lot and more landscaped campus.

When the levelling and grading of the area is completed, other crews will layout the parking lot. The parking area will cover the north end of the block next to the SU. Work on the lot is expected to begin next week.

The south end of the block will be landscaped, complete with sidewalks, grass and shrubs.
