

### Draft Changes

*(Continued from page one)*  
 day. This depends upon the nature or type of service member is in. So far permits have been given to or reserve medical officers. Permission may be obtained by filing an appeal to the commanding officer of the reserve unit or the board issuing the call. The board's office will, upon request by the student, inform the student that the student is attending school full time and give information pertaining to when he will be available.  
 Students who are not members of the reserve forces must be deferred by local draft boards if a request is made, Ellinger said. This is in following the policy set by General Louis Herndon, selective service head.  
 Application Possible  
 A student may apply for a deferment if this deferment is only for one year, or until the school year ends. If the student is disqualified from school before this time, he is immediately eligible for call. This does not mean that a student will necessarily be called in June. He may again request a deferment to finish another year of college, and his request will be studied by the local board.

Reason for so many deferments compared with the World War II draft policy of drafting those physically fit can be attributed to the lesson learned by the Armed Forces in that war. They found that they had to send a percentage of the men back from college back again at government expense to provide necessary officers and intelligence men to run the war.

### Follette Speech

*(Continued from page one)*  
 the Federal Reserve Banks had \$20 billion out of American agricultural life, they produced depression."  
 The problem of 1918 was augmented and increased by production expansion during World War according to LaFollette.  
 "If you want prosperity," he said, "you've got to keep your wheels operating at the speed which they are designed."  
 LaFollette said that only a generation ago each family was an "island" that had greater security than any banker on Avenue. Today's world is interdependent and is more revolutionary than that of the Industrial Revolution.

**Adjust to Condition**  
 Profound changes in the world, he said, "are not the result of politics. They are by-products of laboratories and science. We have to adjust to this physical world in which we find ourselves. We must make both political and economic adjustments."

**Atomic Warfare Menacing**  
 "Atomic warfare is a menace," he said, "but it gives us all the power of creation. With it we can turn a desert into a garden."

Though he advocated a return to the economic principles of earlier days, LaFollette admitted the necessity of government action in certain fields—particularly those of health and education. He would not comment on the advisability of this much disputed Columbia University Authority, but he did speak of the Tennessee Valley Authority, the national government's previous experiment of this

### Landscaping of SU Brought to Halt

Landscaping of the Student Union grounds, which has been progressing for the past two weeks, was brought to a temporary halt by Wednesday's rain.

Harry Jacoby, assistant superintendent of the University physical plant, reports that the 100 loads of top soil scheduled for deposit on SU slopes Wednesday had to be delayed.

In this 'Operation Landscape' weather is the all important factor. Two truck loads of shrubs, destined to complete that phase of the SU operation, are awaiting more favorable weather for planting.

Campus crews have been busy during the past few days tearing up concrete in some places and pouring it in others. Jackhammer operators have torn out the 13th St. entrance to the Johnson hall parking lot, and the sidewalk bordering University St. south of the SU. Extension of the walks west of the SU was completed Tuesday, making easier access to the building from the street.

The removal of the 13th St. entrance is one of the final phases in the overall mall development which has been in progress since early in the Fall.

### SU Board

*(Continued from page one)*  
 Rise, Browsing Room librarian.

Although no definite action was taken, the Board also approved the creation of a creative arts group, to be composed of students who wish further activity in cultural fields such as writing, art, and other similar endeavors.

A new chairman of the Student Union Directorate will be chosen next week by the Board from among the student voting members of the Board. At present the Directorate chairman is chosen from the chairmen of the six student union committees.

This action, said Panian, will bring about better coordination of the two groups, with a member of the Board which makes the policy decisions heading the groups which carry out the Board actions.

The Board actions of Wednesday night were made following the recommendations by the cultural committee of the Student Union, chaired by Barbara Bates.

On October 16, 1876, the examination and classification of University students was begun and classes were soon organized. At the end of the first term there were 177 in attendance.

### YWCA Sponsors Christmas Party

Members of the Tuesday service commission of YWCA freshmen will sponsor a Christmas party for children of the University YWCA co-operative nursery at 4:15 p.m. Tuesday in the YWCA, Gerlinger.

Mothers will bring the 30 enrolled children to the YWCA where games, entertainment, and refreshments will be provided.

Chairman of the party is Diane Boiss. Co-chairman is Peggy Woods.

Committee members are Pat Gustin, Vanda Randall, Elaine Rentell, decorations; Sue Madsen, Judy McLoughlin, refreshments; Joan Dean, Jean Bowman, Sue Barnes, entertainment; and Myra Wood, Beverly Hill and Sue Hannah, clean-up.

### Club Schedules Songfest

A songfest of German Christmas carols will be held at the meeting of the German club at 7 p.m., third floor Gerlinger. The club is sponsored by Delta Phi Alpha, national German honorary.

Plans will also be made for a Christmas program. Hildegard Wagner, club secretary-treasurer, announced. The meeting is open to all students.
