

## Millikan to Talk 'Social Adequacy' Discussed Before Seminar

Dr. Robert A. Millikan, famous physicist, will talk to the regular seminar of chemistry and mathematics students at 4 p.m. Tuesday, in 105 Deady on "Some Concepts in Physics in my Lifetime."

Dr. Millikan is the former president of California Institute of Technology in Pasadena, Cal. He received his B.A. degree from Oberlin college and his Ph.D. in 1893 from Columbia University and has many honorary degrees from schools in this country, including Northwestern, Columbia, Yale, Harvard, Southern California, and from schools in other countries.

### Receives Nobel Prize

For his work on electrons Dr. Millikan received the Nobel prize in 1923. He is a member of the National Academy of Science and has won several medals for his work in physics.

Dr. Millikan has been the president of the American Physical Society and has worked on all types of subjects, being most noted for his work on the determination of charge on electrons. His latest work of prominence has been on cosmic rays.

Millikan is at the University as the principal speaker of Religious Evaluation Week. He will speak Jan. 22 and Jan. 24.

## Petition Deadline Set for YWCA

Deadline for submitting petitions for office in the YWCA for the school year 1951-52 is Friday, Beverly Robathon, YWCA president, stated.

Positions open include elective and appointive offices for all classes. Students interested may obtain petitions and schedule interviews at the YWCA, Gerlinger.

Interviews for freshmen women are held daily at 4 p.m. by appointment. New officers will assume office at the beginning of spring term.

## 'Social Adequacy' Discussed

(Continued from page one) social inadequacy, Mrs. Chambers noted.

Moving to the field of the socially adequate person, the speakers stressed the importance of emancipation from the family emotionally and financially in gaining maturity.

### Opportunity Offered

The person who does not become acquainted with as many new people as possible while in college is wasting an excellent opportunity, Mrs. Chambers said. A person is emotionally immature if he must go home every weekend, Dr. Chambers believes; the student who writes home every day is also indicating this same condition.

Heterosexuality, that is preference for the opposite sex, is a necessity for emotional maturity, the psychologist stated. A sense of humor, concern for health, and normal social participation are further requisites.

An honest self-evaluation of one's own beliefs is needed, Dr. Chambers observed. Knowledge of one's own motivation and an objective attitude toward necessary change with "emphasis on today" is a final important factor.

### Conventions Necessary

However, Mrs. Chambers stated, "We must accept certain conventions, for we cannot fight ways of behaving on which people have

long agreed. We must also accept people as they are, for people do not change simply because we want them to.

"If a person's virtues are greater than his faults, don't ask for more," Mrs. Chambers summarized.

"The socially adjusted person meets his personal needs and needs of the group with the sources available," the speakers concluded.

Following the conversation-type lecture, a question-answer period was held. Personal counselling was scheduled following this discussion period.

Dr. and Mrs. Chambers will continue the lecture series Tuesday with a discussion of "Dating," emphasizing its importance in relation to the final marriage adjustment. "Engagement" is the subject for Jan. 30, and "Marriage," for Feb. 6, the final lecture of the series.

## Emerald Correction

Applications for the Tobe-Coburn fashion school scholarships may be obtained in the office of women's affairs. It is not necessary to write directly to the New York school as stated in yesterday's Emerald.

## SU Board

(Continued from page one)

of persons attending last Sunday's movie in the SU as compared to the movie of a week previous. According to Wilson, 476 persons were present for the two showings of "The Man in the Iron Mask."

In answer to Wilson's call for discussion concerning use of the SU building by townspeople, Director Williams said:

"The policy that the building is of primary interest to the University family (students, faculty members and their families) is favored by both the State Board of Higher Education and the University administration."
