

Did You Drop?

Seven drop cards are on display in the registrar's office, not for decoration, but because the students who left them in the office forgot to sign their names on them.

If you think one of them might belong to you, it would be a good idea to check, or you will find at the end of the term you still are signed up for a course you thought you'd dropped.

Friday Final Day to Register

Advance spring registration is progressing satisfactorily, Registrar Clifford L. Constance reported Tuesday, with 77 students completing the entire process with payment of fees.

Friday will be the last day students can register with department clerks for classes, but the remaining registration steps can be completed up to noon on Mar. 3.

All students must have gone far enough in registration by Mar. 3 to file their cards with the registrar. Fee payment is not necessary until the beginning of the next term, but those students who can pay their fees now should do so, Constance said.

Any student who has any intention of attending school next term should complete registering and file his cards. An \$8 penalty fee will be assessed those who register late.
