

## Look at Their Ears First

**FUR EARRINGS**, the press agents tell us, are all the latest thing in Hollywood. Here three starlets display the new creations—when you get around to 'em. Mary Castle, left, wears an Aleutian mink stole with matching earrings set with rhinestones; Sunny Vickers, center, wears white mink with earrings of the same fur; and Marie Windsor, right, is in a black broadtail jacket with broadtail and pearl earrings. (AP

## Then LIU Came In

**SEVEN PERSONS** are booked in the Elizabeth Street police station New York City, in connection with "fixed" basketball games. Left to right are: Ed Warner; Al Roth, both of CCNY; Harvey (Connie) Schaff of NYU; a detective; Salvatore Tarto Sollazzo, 45, (bending down) a jeweler; Robert Sabbatini, 60, (head down) and Ed Roman of CCNY. Eddie Gard, who played with LIU last year, is hidden behind Roman. Six were booked on bribery charges while Sabbatini was booked as a material witness in the case. (AP WIREPHOTO)

## 'Stardust' Lecture Given By Physicist in Forum

By Bob Ford

"A galaxy is a vast rotation of stars, which is very flat and thin," E. G. Ebbighausen, associate professor of physics, stated at 7:30 p.m. Wednesday in the Browsing Room of the Student Union, in approaching his subject of "The Space Between the Stars."

Ebbighausen explained that the earth is a part of the galaxy, and that there is a tremendous concentration of stars in the nucleus of the galaxy.

"The earth is thirty thousand light years from the center of the galaxy," Ebbighausen continued.

The space between the stars is incredibly vast in comparison to the space occupied by the stars themselves, the physics instructor explained.

Ebbighausen advised the audience to observe the Milky Way on a clear night during the summer. If we look toward the nucleus of

the galaxy, we will observe the stars to be brighter, but as we look away from the nucleus of the galaxy, the stars become fainter, the lecturer said.

This lecture was the seventh in the Lecture-Forum Series, which is sponsored by the Association of Patrons and Friends of the University of Oregon Library.

## Frosh Named To Dormitories Living Survey

Representatives of the Junior Inter-Fraternity Council attended Wednesday night's Freshman Council meeting to explain the proposed survey which is to be taken among all freshmen dormitory residents. The survey, which will include both women's and men's dormitories, is designed to determine the merits and bad points of the living-in plan, the JIFC representatives said.

The freshman council was asked to place three freshmen independents on the committee with JIFC to assist with the

## Theater Party Slated

The annual University Theater Party will be held from 6 p.m. to 8 p.m. Sunday in 102 Villard and in the Green Room. Election of executive board members will take place at the evening meeting.

Any interested theater students are invited to attend. Entertainment and refreshments will be provided.

survey, thus insuring equal representation of both independent and Greek factions. Barbara Green was designated by the council as one of the three. The remaining two will be selected by the Frosh council at their next meeting.

A Frosh mixer and picnic were also discussed. The mixer plans were tabled until representatives could obtain the opinions of their living organizations. May 19 was decided upon as the date for the annual picnic.
