# Oregon Daily EMERALD

UNIVERSITY OF OREGON, EUGENE, THURSDAY, MARCH 1, 1951

#### Sign-up Ends Saturday

Saturday is the last day to turn in registration cards to the registrar's office in Emerald Hall. Those who do not do this will be charged an \$8 penalty fee for registering late.

Fee payments need not be made until the beginning of next term. Students not making payments now simply turn their cards in, and pick them up next term, paying then.

# **SU Board Discusses** Price Change, Magazine

A proposal that faculty members be admitted to Student Union sponsored programs at prices below those paid by townspeople met with comments from both sides of the fence Wednesday evening at a meeting of the SU board.

Other business on the agenda included a proposal to the Stu-

Miss Obertueffer pointed out that high school seniors will be contacted by a specially organized high school relations committee this year. All promotion will be handled through mail, since personal appearances have been done away with.

According to Miss Oberteuffer, high school principals had voiced disapproval of having to hold an assembly for each student representative from the colleges.

# **Cerf Lectures** On New Humor For Americans

By Adeline Garbarino

Bennett Cerf Wednesday night talked of a new kind of humor that won't make you roar with laughter but that will make you feel good.

"Humor," he said, "is the great leavener and the thing that keeps us from blowing our tops."

In comparing the pages of "Try and Stop Me," which was published seven years ago, to the pages of his latest book, "Laughter, Inc.," Cerf discovered a completely different pattern of American humor.

Seven years ago his anthology was filled with wise cracks, insults and other jokes aimed at hurting someone's feelings. "The humor of radio today is humor of insult," said Cerf citing as examples the Bob Hope, Jack Benny, and Bing Crosby shows, in which the main character is insulted from beginning to end.

Quiet Humor

Today, at least in books and plays, there is a more quiet kind of humor, a kind of humor that Cerf feels is more valuable and more constructive.

Tracing recent development in the field of literature through four stages, Cerf mentioned the time when people were reading memoirs of generals and other notables, the period when the top-selling books were tales of reformed drunks or insane women, the era of historical novels with their "tawdry, tired conference. sex" theme, and then finally the latest period in which people seem to be primarily interested in nostalgic works like "Life With Father, 'Cheaper by the Dozen," and "I Remember Mama.'

"Humor, oddly enough," said Cerf, "has kept pace with this dent body cards may vote in the transformation in literary tastes." As an example of this kind of humor, Cerf told the story of Lincoln, who grew a beard because a little girl thought it would help to cover his ugliness, which frightened her.

After he had grown a beard, he stopped one day to see this little

dent Publications Board concerning a literary magazine for the campus, and approval of dances in the SU Balfroom during three nights of the forthcoming high school basketball tournament. Paul S. Duil, associate profes-

sor of political science and history and one of the voting faculty menbers on the board, spoke in favor of changing the present policy whereby faculty and townspeople pay identical admission prices to all functions on the campus except athletic events.

Entitled to Reduction

Dull asserted that as part of the University family, faculty members should be entitled to some kind of a rate reduction. He said that the program of the Student Union was as much a service to them as to the students.

SU Director Dick Williams took the stand that the lower student rates were justified because it is student fees that pay for the main-tenance of the SU building.

Director of Student Affairs Donald M. DuShane, a non-voting member of the board, agreed with the stand taken by Dull and added that the present policy also had a psychological effect on some faculty members to the extent that some of them feel they do not belong to the university com-

A straw vote indicated that a majority of board members did not favor establishing student and faculty prices on the same level unless a fee was also included for faculty members.

Further Meeting

Williams recommended that any deciding action should be tabled until a future meeting, saying that more thought should be given to the proposal before any policy was

Approval of a literary magazine as suggested earlier by a group of students was voiced by the board. Methods of financing the publication will be discussed at another meeting, but the board sent a remmendation to the Publication Board that the editorial staff beselected by the SU group subject
