

# U.N. Troops Plunge North from Parallel

Compiled by Phil Bettens  
From the wires of Associated Press

Allied troops, advancing on a 10-mile front, rolled ahead in the West into Red Korea. Dispatches from the field reported that the troops were encountering only light resistance.

On the eastern front, General MacArthur traveled by jeep 13 miles inside North Korea. He inspected South Korean troops in that area, who are digging in for an expected Red attack.

Fighting was sporadic on the rest of the battle line.

Meanwhile, American Sabre jets shot down three Russian-type MIG-15's and damaged three others in an air battle near the Manchurian border. Other aircraft hit Communist supply lines, which are moving thousands of troops down towards the front lines.

## Students Who Want to Take the Draft...

...deferment exam are asked by the selective service system to wait until Apr. 10 before writing to their draft boards. Each student must apply through his own board to take the special test, which will be given on May 26, June 16, and June 30.

The confusion arose when the selective service system announced on Monday that students wishing to take the test should apply to their draft boards immediately. Spokesmen said that they should have added "After Apr. 12."

A Princeton, N. J., examining service is constructing the test, which will help determine whether men now in college are good enough students to merit continued enrollment.

## Russia Has Again Squashed...

...the West's latest attempt to draft an agenda for a Big Four foreign minister's meeting, according to the usual "well-informed sources." The deputy foreign ministers have been deadlocked for five weeks at Paris, trying to work out an acceptable agenda for the proposed conference.

Andrei Gromyko, Soviet deputy foreign minister, was said to have rejected flatly the West's latest re-draft of an agenda. He added some bitter words of his own on the subject, whereupon the British delegate suggested an adjournment until today.

## Senator Lodge (R-Mass.) Couldn't Make up His...

...mind in the Senate Tuesday. First he led a move to reverse a Senate vote calling for congressional approval of future assignment of troops to Europe, a measure voted by the Senate on Monday. Then after nearly an hour of debate, he told the Senate that he realized his motion had no chance to pass.

He also tangled with Senator Robert A. Taft (R-Ohio) during this debate. Lodge said that the Senate's present stand might require the military to seek an O. K. before sending so much as a general corps headquarters to General Eisenhower in Europe. When Taft disputed this, Lodge retorted:

"I'm not just talking out of the top of my head. I verified this by telephone with people who, with all due respect, are even better qualified to talk about military matters than the Senator from Ohio."

## And, in the Oregon Legislature...

...both the House and Senate were busy. The House approved a measure which would give cities 5 per cent—about \$400,000 a year—of state liquor revenues. The cities would use this money for law enforcements as advocated by the League of Oregon Cities.

The Senate Public Welfare Committee recommended sweeping changes in operation of the state's penitentiary system. Also, it urged the board of control to find "forward-looking practical, and experienced penologists of an age that will permit them to devote many years to the Oregon State penitentiary," as replacements for two wardens well past the retirement age.

## Rich Farms in the South...

...were hit by widespread floods Monday. Most damage occurred in West and south Alabama. Spring planting was made impossible, but weather bureau officials predicted that the flooding rivers would crest soon—probably today.

## 6,000 Canadian Soldiers will Leave...

...Fort Lewis, Wash., for Korea later this month, according to their commander now in Korea. General MacArthur sent out a plea for more front line troops, needed "as soon as they can get there." The Canadians now in Korea also trained at Fort Lewis before leaving for Korea some months ago.

## Communist China has Offered Grain...

...to India—1 million tons of it—and officials at New Delhi said they would send representatives in mid-April to the Communist capital to discuss the offer. But doubt was expressed that shipping could be arranged, even if enough grain was supplied by the Chinese. India has also appealed to the U. S. for aid, and Congress is considering a measure to send them grain.

## It Pays to be Honest...

...as two Yonkers, N. Y., schoolboys can testify. The boys found \$33,841 in the attic of a dilapidated mansion in Yonkers last week. Administrators for the estate of the owner of the house gave the boys each \$1,000 reward, after consulting heirs to the property.
