

SU to Hold Open House Thursday

The Student Union will hold open house from 4 p.m. to midnight Thursday, with meetings with the SU Board and directorate, free coffee at the soda bar, a new exhibit in the art gallery, a football movie, and the Hello Dance highlighting the day of activity.

From 4 p.m. to midnight coffee will be served in the soda bar, compliments of the SU administration.

The Hello Dance will be held in the SU from 9 p.m. to midnight, under the sponsorship of the SU Board. Dick Carlton and his band will be featured, with Jiggs Huston as vocalist. Easy Zarones, Herb Widmer, Dick Dorr, and Johnny Lusk will be featured players. The entire band is composed of local musicians who have frequently appeared at various University functions, but for the first time are combining their talents in an "all star" band. Dr. and Mrs. Ebbighausen will be chaperones.

Dress for the dance will be campus clothes, according to Karla Van Loan, campus social chairman. The dance is a mixer, therefore, a no-date, no admission charge affair.

Alexa Forney, sophomore in liberal arts, is handling decorations for the dance, and Fred Schneider, senior in journalism, is chairman of entertainment.

Life magazine has shown an interest in the Hello Dance, and there is a possibility that photographers from the national magazine may be on hand to cover the dance. Lyle Nelson, director of public service, has announced.

The SU Board and the SU committee chairmen will be on hand in

Dr. Gordon Wright Returns to Campus

without it Europe would be in a bad way, he said.

Europe today is back to pre-war standards, Wright feels, though there have been changes, especially in the division of wealth. Production is back to the peak 1929 level everywhere.

There are, however, he notes, some discouraging aspects to the scene. One is the military situation that forces Europeans to divert money and production into defensive channels just when people could begin living well again.

Social traditions dating back into European history present a second problem, Wright points out.

The society will be changed, he says, either by evolution or explosion. Such a blowup is possible, he notes, for though Europe has returned to pre-war living standards, for many people, this is no longer good enough.

The French worker, for example, earns on the average about \$80 a month. This, according to Wright, is hardly enough when one realizes that the price level in France is almost identical to that in America.

As to the problem of communism, Wright said, the recent French elections may point to its strength though anti-communists maintain the reds were cut by 10% at the polls. After all, he points out, in the 1946 elections, the issues of communism were not clearly defined. In 1951, a communist voter knows very well he is supporting Moscow.

Women's Band Planned; Baton Twirlers Wanted

An all-women band will be formed this year if enough interest is shown, Robert Vagner, University band director, announced. This would be in addition to the regular band.

Women who have played band instruments are eligible, and may register with Ira Lee, assistant band director, in Music 104.

Women interested in being baton twirlers for the University of Oregon Band may register this week with Lee, in Music 104.

Tryouts for positions will be held Monday at McArthur Court. Those interested may report there Monday if they have not registered for the position by that time.

Campus Interviews on Cigarette Tests

No. 23 THE AARDVARK

After all the tests...
aardvark a mile
for a Camel!

This classy campus caper-cutter got his snootful of cute cigarette tests. It didn't take him long to dig out the fact that cigarette mildness can't be determined by a mere single puff or quick-sniff experiment! Millions of smokers, on and off the campus, have discovered there's only one true test of cigarette mildness.

IT'S THE SENSIBLE TEST... the 30-day Camel Mildness Test, which simply asks you to try Camels as your steady smoke — on a day-after-day basis. No snap judgments. Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...
