YW Member Drive Ends; 637 Enlist

The YWCA membership drive ended Thursday with 637 women signed up to take active participation in Y activities, Jackie Wilkes, membership chairman, reported Thursday.

Miss Wilkes announced that the freshmen commissions will get under way during the week of Oct. 15. The junior advisers for the commissions will be contacting freshmen to advise them of the day and time of their particular commission meeting.

She also stated that the Y would "try to get all members into committee or commission work so they can get the most benefit from the Y program."

A few minutes of your time and a pint of your blood can mean the difference between life and death on a soldier in Korea. Donate today and say, "My blood is for the Armed Forces Blood Donor Program."

It takes almost three pints of blood to make one pint of life-giving plasma. The reserve supply of the Armed Forces is sorely depleted. Donate your pint of blood now and save a life.

Speeding drivers involved in 1 out of 3 fatal traffic accidents

Watch out—the time you save by speeding may be spent in the cemetery. According to official traffic records, speed is the most frequently reported violation in fatal traffic accidents.

So exercise your foot someplace else than on the accelerator. Remember that a speeding car is harder to handle, takes longer to stop, does

more damage. Make it a point to drive at safe speed . . . always.

When driving conditions are bad, safe speed is often much lower than the legal, posted limit. Be sure to slow down when weather or visibility is poor. It may take a little longer—but chances are you'll live a lot longer.

Be Careful—the life you save may be your own!

FACTS ABOUT EUGENE'S WATER & ELECTRIC UTILITIES

Eugene's modern, newly-built water purification plant at Hayden Bridge will supply up to 30,000,000 gallons per day. It is designed for eventual enlargement to 75,000,000 gallons per day—which is enough water for a city of at least 150,000 persons.
