The retreat, originally planned for Oct. 26-27, was changed to Oct. 19. Council members will leave Eugene at 4 p.m. Friday for the retreat location, donated by the Baptist Campfire group, and return Saturday morning.

Jane Simpson, chairman for the retreat, announced the committee chairman for the affair. They include: Jim Woodruff, transportation; Mary Alice Baker, program; and Ron Abrams, recreation.

The foreign student reception is slated for 8 p.m. Oct. 23 in the Student Union ballroom. Council chairmen for the affairs, which will be jointly sponsored by the council and the Foreign Students Friendship foundation, include Natalie Beckett, host and hostesses; Sharon Anderson, invitations to Eugene townspeople; and Mary Cochrane, invitations to foreign students.

It was announced at the meeting that a state World Student Service Fund conference will be held at Willamette University Oct. 20. One delegate from each campus religious group was asked to attend.

The next meeting of the Council will be at noon Monday in Westminster House.

Students Split
On Question
Of Athlete Aid

By Tom Shepherd

"Should athletes be subsidized by the University?"

Webfoot students were divided in their opinion as to whether athletes should be helped through school financially by the University.

Mary Louise Austin—senior in English—"Yes, if we're going to keep up with the sports program of other schools in the nation. However, the system of subsidizing players does cheapen the whole idea of college sports."

Robert M. Jones—junior in architecture—"No, athletes should not be subsidized. If any athletes are to be paid, pay the professionals, not the amateurs."

Sabra Chaney—freshman in liberal arts—"I believe that exceptional athletes should be subsidized by the school."

Dick Morse—sophomore in architecture—"Athletes should be paid but not quite so liberally. They should be made to sweat for a few of the dollars the University gives them."

Sharon Williams—junior in history—"It's all right for the schools to provide jobs for them, but athletes should work for the money they receive just like anyone else working their way through school."

Carol Broern—sophomore in liberal arts—"Athletes should be paid. As long as they have the ability, they might as well be paid for their services to the University like anyone else who works for the school."

Janet Peterson—freshman in journalism—"Athletes should definitely not be subsidized. Things cost enough on campus now without having to pay for athletes."

Bob Peterson—junior in physical education—"The regular PCC grant-in-aid system now in operation is sufficient for any athlete."

Kenneth Peters—graduate student in business and economics—"Football and other sports subsidies should be based upon some standard of scholastic ability, emphasizing education as of primary importance and sports of secondary importance."

Duvenn Parker—sophomore in education—"Athletes should be paid. They would, in many cases, be unable to attend the school unless they did receive money from the school."

Bob Nelson—graduate student in education—"I am opposed to the emphasis put upon football and other sports by the University. Although I recognize that sports have a place in campus life, I don't believe that the athlete should be paid to participate in college sports."
