Foreign Students Guest of Emerald, Honoraries Today

The 14 foreign students in the School of Journalism will be guests of the Emerald and Theta Sigma Phi and Sigma Delta Chi, journalism honoraries, at an informal coffee hour and round table at 7 p.m. today in the Student Union.
Brief talks will be given by Lorna Larson, Emerald editor; Gretchen Grondahl, president of Theta Sigma Phi; and Bill Clothier, president of the men's honorary.
Each of the foreign students will be asked to give a short personal history.

More Queen Candidates

BARBARA BATES, left, and Lyn Hartley are the last two candidates for Homecoming queen to be interviewed by the Emerald.

Last of Candidates For Queen Interviewed

By Donna Hart

Barbara Bates and Lyn Hartley are the last duo of Homecoming queen candidates to be interviewed by the Emerald. Interviews of the other four candidates, Jody Greer, Helen Jackson, Molly Muntzel and Nancy Miller, appeared in Wednesday's and Thursday's Emeralds.

Barbara Bates is another of the Homecoming queen finalists whose major is in the field of art. She is a fifth year student majoring in interior design in the school of architecture. She hopes to continue her work in the field in a professional capacity. Upon graduation from Oregon she plans to work in Portland.

Before coming to the University of Oregon she attended Willamette University for two years. She graduated from Salem high school in 1947. Since coming to Oregon she has participated in several campus activities, including presidency of Alpha Chi Omega, chairman of the Student Union cultural committee, steering committee of associated students of architecture and allied arts and secretary of the student chapter of profession interior designers.

The 5-foot 6-inch, 12-year old brunette enjoys all types of sports, including spectator sports, such as football and basketball. "I'm a lousy skier," she comments, "but I love to ski. My work in the architecture school has to be both my main hobby and my interest for it is very time consuming." The blue-eyed Salemite is working toward her graduation in June from the five-year architecture school.

Miss Bates expressed confidence in the 1951 Homecoming plans. She said, "This year the Homecoming schedule is geared so that the students will have time and will want to be hosts to the returning alums. The difficulties arising from the Homecoming dates were adequately taken care of by the house poll which was taken."

LYN HARTLEY

November 23 may mean the day of the 1951 Homecoming celebration for most people, but for Lyn Hartley it will also be the day on which she celebrates her 19th birthday. The Delta Gamma sophomore holds the title of Sweetheart of Sigma Chi, which she won during her freshman year at the University.

This 112-pound, 5-foot 6-inch brunette is formerly from Portland, but now lives in San Diego, California. She graduated in 1950 from Hoover high in the California

seaport city. A major in pre-nursing, Miss Hartley plans to be an anesthetist. After graduation from the Oregon Nursing school she plans to take one extra year of specialization in anesthesia at Cook County hospital in Chicago. At the present time she does Red Cross volunteer nurses' aide work at Sacred Heart hospital.

Miss Hartley's college activities include rally board, Whiskerino clean-up and promotion committees and Dads' Day promotion committee. Her outside interests lie chiefly in sailing and bowling.

In speaking of the Homecoming schedule for this year, Miss Hartley stated, "I think as a whole the schedule has been worked out satisfactorily; especially considering the disadvantages present. With everyone's cooperation and the sincere effort put forth by all persons concerned, I'm sure Homecoming will be the success it has always been in past years."

She further expressed the opinion that "Frances Gillmore deserves a great deal of praise for her apt handling of an awkward situation."

Stagecraft Class Discovers 'Bugs' In Friendly Hall

Discovery of "English department bugs" in the basement of Friendly hall was announced Thursday by a fundamentals of stagecraft class.

The bugs, about an inch in length and black with six legs, were exposed when the class prepared to move old scenery stored in the basement. It was reported that the bugs have flourished on a diet of "surplus knowledge from the English department on the floors above."

However, students in the biology department upon examination of the insect, called it a periplaneta Americana or what is commonly known as a cockroach.
