New Equipment Being Installed At Science Building

Installation of laboratory equipment for the new Science building has been started. I. I. Wright, superintendent of the physical plant, stated Tuesday.

Some of the equipment being installed has been made by the physical plant, and the remainder was purchased from private firms. Installation of this equipment will be supervised by firm representatives who are expected to arrive early in December, according to Wright.

Completion of the heating and ventilation systems and other finishing work is now being carried on by a contractor, Wright added. The new Science building will house the physics, chemistry and biology departments.

Opinions Given On Five-cent Hike Of Phone Rates

By Sue Lichty

The Pacific Telephone and Telegraph company has proposed a five cent raise in pay phone charges. At this time some eastern cities have this plan in effect. The proposal would affect the cost of pay phone calls in Eugene if approved by the Public Utilities Commission.

Students were asked, "What do you think of the telephone company's proposal?" Strong disapproval was shown by all questioned.

Jean Asplund—junior in biology—"If they do raise the cost, I'll get a two-way wrist radio and help make Diet Smith a millionaire."

Hugh Ward—junior in geology—"Personally, I don't even like the five cents. I don't think it will go through, at least I sure hope not."

Lila Carlson—sophomore in history—"They should keep it a nickel. You can put a penny in the nickel slot and it works!"

Jim Masters—freshman in business administration—"Gamma hall isn't faced with that problem, because we can call New York for 75c using pennies in the nickel slot."

Ginger Loudon—freshman in physical education—"I'll be doing a lot of walking. I can't afford to call someone every time I need to."

Richard Anderson—sophomore in liberal arts—"I'm running out of pennies anyway."

Tania Lennox—junior in art—"It is very impractical! You might as well not have phones down here if you have to pay a dime for a call."

Nancy Gale—sophomore in art—"I don't think students can afford these high prices!"

Sue Behneke—freshman in liberal arts—"I'll either have to set up a crystal set, or get me a carrier pigeon."
