**'Cattle Chute' Speeds Service In SU Fishbowl**

By Sue Lichty

Several students interviewed Thursday feel that service in the Student Union "fishbowl" is better now that the rope railings are up around the soda bar. However, they still feel that they should be served more quickly.

A few interviewed said that the service is just as bad, since people crowd into the lines. One suggestion was to put the rope closer to the bar to stop this crowding.

The answers to "Has the rope railing around the soda bar speeded up service in the Student Union?" were:

**Gloria Barry**—senior in education—"Yes! It has improved a great deal. At least you get waited on when you're in line."

**Doug Ambers**—senior in political science—"It has channelized the customers, but they still need someone with authority behind there to organize the help."

**Pat Newell**—freshman in liberal arts—"No. People still crowd in, and the rope doesn't help. However, I never thought service was very bad."

**Bill Sturdley**—sophomore in business administration—"The rope is fine, but should be painted yellow instead of green. The psychology of green is all wrong. Yellow is far superior."

**Marian Carstensen**—freshman in liberal arts—"Definitely! You get served a lot quicker."

**Vern Cook**—third year law student—"This system makes it fairer, but if the help were distributed on both sides it would be faster."

**Shirley Larson**—freshman in art—"No. It's slower. They shove people out who are waiting for an order, and people still crowd in even with the rope there. It should be closer to the bar."

**Arthur Sturdley**—sophomore in business administration—"I'm six-foot, three-inches tall, weigh 198 pounds, and I still don't like a fight for a cup of coffee. This system is superior."

**Billiards Star Gives Exhibition**

Charles Peterson, famous 73-year-old billiard star, appeared in the Student Union recreation area Thursday under the sponsorship of the SU recreation committee.

"Show me a shot I can't make," the billiard authority who has been playing billiards for 60 years, stated during the exhibition.

Peterson, who has been giving exhibitions since 1931, is sponsored by the Billiard Congress of America, and Association of College Unions.

Approximately 200 people attended the exhibition, and others will have an opportunity to see Peterson when he returns to the campus winter term for another exhibition, according to John McAloon, chairman of the SU recreation committee.
