Not All Students Come from Portland

Did you ever feel that almost everyone on campus was from Portland? You shouldn't. Eugene outranked Portland by some 356 students during the 1950-51 sessions.

Eugene has recorded an amazing increase of 100 per cent over its 1941-42 mark of 729. For years Portland had dominated, but in 1946-47 registration swung in favor of Eugene by a 1671-1364 ratio

because of returning veterans and married students. Although Portland's 1,100 did almost represent one-fourth of the total registration of 4,494, it was only a 25 per cent increase over its 1941-42 mark.

Foreign Students Increase

A 282 per cent increase was noted in the number of foreign students and students from Hawaii and Alaska when 168 registered last year. Only 44 attended in 1941-42. Last year Hawaii sent 62 and Alaska, 21. Canada was way out in front in the foreign country division with 18 and China came next with 10. The average was about two apiece for the remaining 27 countries.

The "kids from the sunshine state" have been losing out. California recorded a drop of 8 per cent when only 444 students registered last year. Washington did itself proud by sending 193 for a 77 per cent increase in the past 10 years.

All But Two

All other states, classified in a single unit, showed an increase of 36 per cent. Disregarding California and Washington, all states except Virginia and Vermont were represented in the 975 out-of-staters last year.

And how does the ratio of Oregon students versus all other students stand in all this shuffling? Amazingly, it remained the same at 79 per cent.

WHAT'S SO DIFFERENT ABOUT ENGLEWOOD, N. J.?

In Englewood, the local telephone exchange looks pretty much like the telephone building in any other town.

And Englewood's telephones seem just the same as the twenty-seven million other dial telephones in the country.

But there's a difference...

You can pick up a telephone in Englewood and dial San Francisco telephone numbers direct!

In fact, you can dial any one of eleven million telephone numbers in thirteen widely scattered areas from coast to coast.

That's what makes Englewood different - the new kind of Long Distance telephone service on trial there by the Bell System.

Long Distance dialing is another example of the Bell System's constant search for ways to provide you with ever-better telephone service.
