

University Theater to Present Scenes from Plays

Two performances of the student theater's second production will be presented today in 101 Villard at 4 p.m. and 7:30 p.m.

The first and second scene of act two, and excerpts of act three of "Miss Lulu Bett" will be presented by Frederic Hunter's technique of acting class. The play is by Zona Gale.

Nancy Morse plays Lulu Bett; Richard Hiatt, Dwight Deacon; Sharon Hamilton, Ina Deacon; Shirley Netzel, Manona Deacon; Betty Wise, Diane Deacon, and Barbara Koch, Grandma.

"Lilliom" by Ferenc Molnar will be presented under the direction of Horace Robinson. The scene presented is the opening scene of the play, which takes place in a park in Budapest.

Beverly Brunton plays Marie; Joyce Rathbun, Julie; Jeanette

Barzman, Lilliom. Stone, Mrs. Muskat; and Alan

Athletes Good Students

CONTON, N. Y.—(U.P.)—Athletes at St. Lawrence University are good in the classroom, too. They had higher scholastic averages during the term than the total

To prevent the sediment that accumulates in the bottom of a tea kettle from hard water you should throw away immediately the remaining amount of boiling water which you are not going to use. Do not allow the boiling water to settle in the kettle.

The bigger we grow the smaller we get!

1. Today, Union Oil Company does an annual business of over \$250 million. This seems like a whale of a lot of business when you consider that back in 1910 (when we were 20 years old) we did an annual business of \$12 million.

2. But back in 1910 there were only 468,500 cars in the U. S. and the average American used only one quart of petroleum products a day. Today there are over 44 million cars in the U. S. and the average American uses 1 9/10 gallons of petroleum products every day.

4. Today we are among the nation's 100 largest corporations and are 20 times as big as we were in 1910. But here's the important point: 42 years ago we did about 23% of the oil business in the 5 western states—our major marketing area. Today, in spite of our growth, we do only 13% of the oil business in the 5 western states!

3. To supply this steadily increasing demand for petroleum products, long-established companies had to expand and many new companies have entered the field. As a result, competition has increased. In 1951 there were 4 1/2 times as many oil companies in the U. S. as there were in 1910—all in competition for your business.

5. In view of all this, it seems rather strange to hear so much talk about *bigness*. Of course, individual oil companies are bigger. They have to be bigger to serve the bigger need. But the vast majority aren't as big in proportion to the total business as they were 42 years ago. In fact, they are getting "smaller" all the time.

UNION OIL COMPANY OF CALIFORNIA

INCORPORATED IN CALIFORNIA, OCTOBER 17, 1890

This series, sponsored by the people of Union Oil Company, is dedicated to a discussion of how and why American business functions. We hope you'll feel free to send in any suggestions or criticisms you have to offer. Write: The President, Union Oil Company, Union Oil Building, Los Angeles 17, California.
