**Burglars Unidentified**

Police have been unable to detect the one or more unidentified burglars who stole \$43 from the University Veterans' dormitory cash box on Nov. 28, according to Detective Ray Johnston of the Eugene Police department. Johnston added that fingerprints were studied without conclusive results.

Scientists can determine the age of skeletons by measuring the amount of radio-active carbon in the bones.

**Selective Service Exam Scheduled For Thursday**

The selective service college draft qualification examination will be given on campus Thursday to those entitled to take it.

Previously given three times last summer to college men who applied, the test will be held Thursday at 8:30 a.m. in 3 Fenton. Doors will close at 9 a.m., according to J. Spencer Carlson, director of counseling and admissions, who is conducting the examination.

According to the directions given on the bulletin of information received by eligible students—those who applied for Thursday's test and who received a ticket of admission entitling them to take the test here on that day—all applicants should bring the following materials to the examination:

A pen or number two pencil.

**Campus Exchange Plan Discussed**

(Continued from page one) pay phones in the schools cited to "lax enforcement" of the tariff by the local telephone companies.

Scholl also asked why the dormitory students were not represented at the hearing. Seibert explained that these students were in an entirely different situation. He pointed out that the schools in each case own the dormitories and that the students there could not decide their own case as was possible for the fraternities and sororities.

Some discussion arose as to the interpretation of words within the tariffs themselves. Oregon State, which had hired a Salem lawyer to assist in presenting their case, felt that the terms of the tariff do not apply to them.

(Briefly, the tariff requires pay phones in "collective" living establishments; the phone company and the students disagree over the interpretation of "collective" in that the students feel that Greek houses are not collective groups.)

Scholl, in presenting his argument for adoption of the company's intra-campus exchange, said that a survey in Corvallis showed that most calls from fraternities and sororities there went to other living organizations. He went on to state the situation at other West Coast schools, in refutation of Seibert's statement, showing that other coast college and university living groups do have pay phones. He cited California, UCLA, USC and Portland university.

**Did Garcia Really Care About Getting That Message?**

This is the sad story of a senior who was Serious about a Girl. In the straightforward manner of seniors, he invited her up for the Big Weekend.

He sat down and wrote her a nice letter a month ahead. Then he sat back and waited. And got no answer in three weeks. Finally, in desperation, he phoned Her.

Cost him \$4.25 in quarters. When the honking of the Coin Box stopped, all he could hear at the other end of the wire was a stutter of Sniffs. "Honey?" he asked. She sobbed more plainly.

"Harold," she wailed, "You used to send telegrams to invite me to Big Weekends—This year, all I get is a little old Letter. You don't love me." And hung up.

Harold goes everywhere stag now. Says he prefers it that way. But when he passes a Western Union office, he sighs.

A telegram takes any message right out of the casual class. It's subtle—flatters the person who gets it. Next time you send an invitation, or a howl home for cash or a birthday greeting to Mother—just call Western Union or head for your Western Union office.
