IFC Quota System

(Continued from page one) ternities to observe a help week plan for initiations, the committee will only act as a coordinating body for those houses which want to participate.

"Give 'Em to JIFC" Past Phi Delta Theta President Norm Peterson suggested that duties of the committee be assigned to JIFC. At President Dick McLaughlin's suggestion the motion was tabled until the next meeting. The committee's duties will comprise locating various service projects about the town and campus, presenting them to interested fraternities and adjusting dates to suit the projects and the workers.

Settling the previous meeting's discussion about the intramural bowling program, the group agreed to continue supporting the point system for the present, with the stipulation that action would be taken before next year to change it.

The fraternities expressed dissatisfaction with points toward the intramural cup which are awarded participants in the sport, since most houses don't feel that interest justifies its expense. At the previous meeting a motion disapproving bowling as a sport counting toward the trophy was passed.

Christ Explains 1948 Quota Bob Christ explained the 1948 house quota plan to the group. He explained, "We don't want to curtail anyone with this system. Though the word 'quota' implies restriction, that's not it." Christ went on to say that the University health service determined the quota according to how many men should live in each house for health purposes.

The quota is based upon three principal student classifications:

1. The number of men living in the house at the present time, excluding boarders, guests and foreign students.
2. The number of members who don't live in, but who are active on the campus.
3. All undergraduates, with the exception of married members, law students or members doing advanced work for the university.

Presidents to Confer Classifying next fall's tentative membership in these groups, each house president will confer with IFC Adviser Ray Hawk, Christ and McLaughlin to work out a fair maximum quota for his house. "From those figures you will be able to determine how many pledges you ought to have this year," Christ said.

Since some houses have remodelled since the 1948 house survey, any fraternity capable of supporting a higher figure than previously estimated will be re-examined by Hawk and Fred N. Miller, health service director.
