Man Strolls On Carson Roof - - at 3:30 a.m.

A second-floor Carson hall girl was awakened by a noise but on the front terrace roof at 3:30 a.m. Saturday. She looked out, thought she saw a man on the roof smoking a cigarette, ducked back in her room and asked two other girls to take a look.

They did. They saw him, too. They all called the night watchman.

When they looked out again, the man was on the ground. "Were you just on the roof?" they asked.

"Yes," he answered, "I was trying to get some cigarettes." A few minutes later the man was gone.

A movie, "This Charming Couple," will be shown following Berremans' remarks, and discussion will then be held.

Tickets for the series cost 50 cents and are available at the door.

Reuther Soft-pedaling Probe Of CIO, Fulton Lewis Charges

"The Common Denominators of Democratic Survival" will be the topic of labor leader Walter Reuther's talk when he speaks to University students at 1 p.m. today in the ballroom of the Student Union. Reuther is president of the United Auto Workers Union and vice president of the CIO.

Reuther was born in Wheeling, W. Va. in the heart of the steel and mining industries. His father was

president of the Ohio Valley Trades and Labor assembly and was an organizer for the United Brewery Workers.

Reuther, who has been active in union activities since the age of 15, has participated in the sitdown strikes in Detroit and Flint, Mich., in the drive to organize the auto industry. While trying to organize the Ford workers in 1937, Reuther and other unionists were beaten by Ford servicemen in what has come to be known as the "battle of the overpass."

During the pre-Pearl Harbor period he fought the isolationists when in 1940 he advanced a program for converting auto plants to a war footing and mass production of military planes. His plan was praised by President Roosevelt, but industry leaders in Washington and Detroit opposed it. The basic elements and contentions of the "Reuther Plan," as it was popularly known, were used when the

Assembly Speaker Opposed Broadcasts, Commentator Asserts

By Al Karr

Today's University assembly speaker is helping soft-pedal a Congressional investigation of the CIO union, Fulton Lewis, Jr., charged Monday.

The speaker is Walter A. Reuther, president of the United Auto Workers. Lewis said Reuther is at least partly responsible for the ban on radio and television broadcasting of the investigation of the CIO in Michigan, now being conducted by the House Un-American Activities committee.

Lewis Explains

Lewis, in his daily Mutual broadcast from Washington, D.C., said Reuther and the Democratic party in Michigan do not want evidences of softness toward Communist elements in that state's CIO union to be emphasized by such publicity, even though Reuther "is supposed to be anti-Communist".

The ban on television and radio was ordered by Speaker of the House Sam Rayburn (D-Tex.).

They're Involved, Too

Also involved in getting the ban, said Lewis, are Sen. Blair Moody (D-Mich.) and Gov. Mennen Williams. Moody, the commentator claimed, obtained his present position because of Reuther. Moody was appointed to the Senate to replace the late Arthur Vandenberg. "Williams, too," said Lewis, "is under the thumb of Reuther."

Rayburn, Lewis asserted, answered charges that the Senate crime investigations were allowed to be televised by saying the House and the Senate have their own individual rules.

What Rayburn failed to point out, Lewis said, is that the House itself has allowed the House of committee hearings all along, but

Uses Feminine Wiles and Charms

Heroine of 'Second Man' Is 20 and Unsophisticated

"I use all my feminine wiles and charms to try to make Clark Storey fall in love with me, and I'm intelligent enough to think up a pretty good play," Colleen Moore commented on her role of Monica Grey in "The Second Man," University theater play beginning Friday.

Monica Grey is a vivacious and sparkling woman of 20, and the least sophisticated character in the play.

Thinks She's in Love

Monica thinks she is in love with Storey, played by Faber DeChaine. She spends all her time trying to make Storey fall in love with her, and she spurns the affection of Austin Lowe, the 27 year old chemist, who is deeply in love with her.

"I'm very thrilled to have a lead in 'The Second Man,'" Miss Moore said. "I've tried out for every play, and was encouraged because I had made the finals each time, and I guess I got the role by the law of averages."

Miss Moore is a freshman speech

and dramatics major. She was active in high school plays at Washington high school in Portland.

"The arena theater is new to me," Miss Moore said, "though I did skits in the arena theater in high school. This is my first major production, but I'm sure I'm going to like the arena theater as well. It is a new and interesting experience."

"I enjoy the play very much, and I'm sure everyone that sees it will enjoy it," Miss Moore said.

Allan Barzman plays Austin Lowe, the prominent chemist, who spends his time trying to win Monica.

Advises AEC

Lowe is 27, and an advisor to the atomic energy commission. He is sincerely in love with Monica, but is inhibited in social circles. He is stiff and uncomfortable among people because of his social retardation, and thus has trouble expressing his love to Monica. Monica thinks he's a bore, and is not at all interested in his work.

Lowe finds Storey the only person in which he can confide. Storey spends his time trying to get Monica to accept Lowe.

EDDIE "LIL ABNER" KENNEY (left) appears more interested in his Emerald than in Bunny "Daisy Mae" Austin. The two were found posing on the Carson hall steps to promote the annual Women's Recreation association carnival Friday night. The carnival, "Dogpatch Daze," will be held in the men's unfinished gymnasium next to McArthur court.
