

## Board Votes Four-day-a-week Schedule For Emerald Next Fall

By Rodney Morrison

Publication of the Oregon Daily Emerald will be limited to four days a week next year with a "return to a five-day-a-week publication schedule just as soon as financially possible," the Student

Publications board ruled Mar. 4.

The decision, which will discontinue the Monday paper starting fall term, was contained in an Emerald sub-committee report adopted by the Publications board.

"In planning for next year the committee believes that we must prepare for a decrease in enroll-

ment and a probable increase in printing costs," the report stated. "At the same time it is desirable to take the extreme pressure off the business manager.

"It at any time during any school year it appears that Emerald income will be higher than anticipated the committee ex-

pects the board to authorize additional issues immediately," it continued.

Other suggestions in the adopted report were that:

1. The Emerald advertising budget be cut from \$13,000 to \$12,000 a year and the advertising rate structure adjusted.

2. That a new percentage-of-board-and-room wage scale replace salaries presently paid students holding top staff positions.

3. And that personnel in all paid staff positions, except business manager, and in as many other positions as feasible, be changed twice a year.

# EVER DREAM OF SPENDING A MILLION DOLLARS?

### Then consider this:

If you had started on January 1 in the year 1236—two hundred fifty-six years before Columbus discovered America—and spent ONE MILLION DOLLARS EVERY DAY throughout that year...

...and if you had continued to spend ONE MILLION DOLLARS EVERY DAY of every year in the 716 years that have elapsed since that time...

...it would still take you until May 8, 1953, to spend as much money as the U. S. Government has collected in taxes since World War II ended.

That's what the 262 billion tax dollars—which your Federal Government has collected and spent in the period from August, 1945, to January, 1952—amounts to.

That's why \$1.00 out of every \$5.00 you've earned in the last 6½ years has gone for Federal taxes.\*

That's why \$1.00 out of every \$4.00 you'll earn this year is earmarked for Federal taxes.\*

\*This is in addition to the State, County and Local taxes you pay—including your State gasoline tax.
