

# Sing the Story of Oregon

**"ONE DIRECTION FORWARD . . . ON WITH PROGRESS"**

**IF ONLY DANIEL WEBSTER WERE HERE!** How wrong this statesman would be when he dismissed the whole Oregon area as perfectly useless, saying on one occasion:

- "What can we do with the Western Coast, rockbound, cheerless uninviting and not a harbor in it."
- "We have no use for such a country."
- "I will never vote one cent from the public treasury to place the the Pacific Ocean one inch nearer Boston!"

**Yes, there was nothing but forests. But pioneers prevented a short circuit in America's line of progress**

- Oregon is America's greatest lumbering state
- Every year since 1938, more than 26 million acres of commercial forests are harvested
- Oregon's lumber goes to every state in the Union and many foreign countries
- Forest products reach the total average of \$803,375,000 a year
- Oregon produces about one-fourth of the nation's lumber output.

**Had Daniel Webster still lived today, he would have seen these great accomplishments of our American lumbering pioneers in Oregon:**

**THE LUMBERING INDUSTRY LAID THE FOUNDATION OF THE UNIVERSITY OF OREGON. AS 1952 MARKS ANOTHER YEAR OF INTELLECTUAL AND LUMBER PROGRESS, WE PROUDLY JOIN THE UNIVERSITY OF OREGON'S ALUMNI, FACULTY, AND STUDENTS TO "SING THE STORY OREGON" IN THE HOMECOMING OF 1952**
