ROK's, Chinese Continue Battle

Compiled by PAT GILDEA Emerald Assistant Wire Editor

(AP)—A counter attack by the South Koreans on the Chinese Communists for the control of Pin Point hill on Sniper Ridge was launched at dawn Wednesday, Korean time.

Tuesday night, in the rain, the Reds stormed and captured the strategic height—for the 13th time in 29 days. Wednesday morning the South Koreans started back up Pin Point hill after a burst of Allied artillery opened up on the Chinese.

The Chinese attack, Tuesday, opened with a terrific barrage. One American military adviser called it the heaviest artillery concentration he'd ever seen.

Cloudy and rainy weather held down allied air activity during the day.

No Comments Released on Bomb Reports

(AP)—In papers across the country there are increasing reports by servicemen who claim to have seen the first hydrogen bomb exploded in the South Pacific, Nov. 1.

The atomic energy commission refused to comment today, as it had on previous accounts.

The government announced some months ago that there would be new atomic tests this fall in the Pacific. Since then there's been only silence officially and much speculation unofficially that one of the super hydrogen bombs was exploded in the tests.

Eye witness accounts of an explosion have been made public in Los Angeles; Lima, Ohio and Michigan City, Indiana.

In the letter published in Michigan City the sailor referred to the explosion he saw as that of "an H-bomb."

Even with his eyes tight shut and his arms folded over them, the sailor wrote, the flash of the explosion—from his ship 35 miles away—was bright.

Debate Raised By Resignation

(AP)—Trygve Lie's resignation Tuesday as United Nations secretary general has touched off speculation on his successor and raised the prospect of an east-west struggle over the appointment.

Candidates being considered as possible successors to Lie are Brigadier General Carlos Romulo, Philippines; Foreign Secretary Lester Pearson, Canada; Luis Padilla Nervo, Mexico; Nasrollah Entezam, Iran and Dr. Charles Malik, Lebanon.

The Russians rejected Canadian Pearson in 1945, when Lie was chosen. Two years ago they said they'd rather have Romulo than Lie, but since then the Philippines have concluded a mutual defense treaty with the United States.

When Soviet Foreign Minister Andrei Vishinsky was asked by an Associated Press newsmen today for his choice, he replied, "We have none."

The Moscow radio has broadcast the Soviet reaction to Lie's resignation from his U.N. post. The Red broadcast denounced Lie for his support of the U.N. action in resisting Communist aggression in Korea. It claimed that Lie had been shown up as an agent of aggressive circles in the United States and that he had helped our nation to hide U.S. aggression under the U.N. flag in Korea.

Reds Attack Ike's Policy

(AP)—President-elect Dwight D. Eisenhower was called a "blood thirsty war monger" by the Chinese Communist radio in its first comment on Eisenhower's plans for visiting Korea.

The Chinese Communist broadcast credited the general with having won the election by what it termed "his ambiguously worded promise to end the Korean war."

But it said he can do nothing about ending the conflict, "unless U.S. ruling circles abandon their preposterous proposal for forcible detention of war prisoners."

Winnie Wins Strength Test

(AP)—British Prime Minister Winston Churchill's Conservative government came out the winner in the first test of strength in the new session of Parliament, yesterday.

A Labor motion of no-confidence in the government was presented and defeated. The division was 313 to 279 votes, a margin of 34 votes for the Conservatives. They have a normal margin of only 16 seats in the House of Commons.

In presenting the challenge, Monday, Laborite leader Herbert Morrison had charged Churchill's government did not have a strong enough economic policy.

Ike, Adlai Support Freedom Crusade

(AP)—Support of the 1952 Crusade for Freedom and its campaign against Communism was urged last night by President-elect Dwight Eisenhower and his former opponent, Governor Adlai Stevenson.

In radio speeches the political figures stressed the need for the American people's backing in this cause.

"Freedom cannot live in any nation, no matter how powerful, unless it is preserved also in other significant parts of the globe, the General said.

Governor Stevenson's address stressed the operation of Radio Free Europe and Radio Free Asia by an independent organization.

Britons Propose New Korean Plan

(AP)—There's little hope in western circles that Russia will accept a British plan for settling the Korean truce deadlock over prisoners of war.

Anthony Eden, Britain's foreign secretary, asked Russia's Andrei Vishinsky in his speech at the U.N. Tuesday to take just one crucial step toward settling the Korean deadlock.

A deep groan echoed among the western delegates as Vishinsky sat there, not blinking.

Rushing Regulations For Winter Term Announced by Baltz

Rushing for freshman men will be held the second week of winter term, Fred Baltz, Interfraternity council secretary-treasurer, has announced.

The "limited social contact" system in dealing with freshman has been adhered to this term by the IFC and its individual members, and is in affect for the remainder of fall term.

In accordance with the IFC rushing rules, a freshman is defined as any person having less than 36 term hours of credit and three terms or two semesters of attendance at a college or university.

Excluded from this definition are all men who were eligible for rushing spring term, and who were in attendance as regular students at the University that term.

"Limited social contact" is so defined as to prohibit:

- 1. A freshman from attendance at any fraternity house function
2. Fraternity men and freshmen from double dating
3. Freshmen and fraternity men from attending picnics together
4. Fraternity men and freshmen from attending a commercial movie in the company of one another
5. The entrance of a fraternity man into freshman dorms
6. A freshman from entering the premises of a fraternity
7. Any contact that can be interpreted as a rushing function, in any place where such a function might be held.

Violation of this policy will subject the offending fraternity to a fine of \$50 for each freshman rushed under the meaning of this agreement and loss of the right to pledge said freshman for one year.

In cases where a fraternity man has entered a freshman dormitory without actually making contact with a freshman, the fraternity will be subject to a fine of \$50 if the tribunal determines that there was intent to contact a freshman for rushing purposes.

Any violation must be reported to the vice-president of the IFC at least 24 hours before the first meeting of the IFC after the discovery of the violation.

No member of any fraternity is permitted to live in the University freshman dormitories during fall term except as official counselors or sponsors. Violation of this provision will be punishable by a fine of \$30 for each infraction.

All penal action is exacted by and at the discretion of the tribunal as provided for in the constitution of the IFC.
