lied arts exhibit gallery until ing October used 21,998 books. He broke the circulation figures into three groups: general books checked for home use, 9,948, reserve used outside the-library, 3,456 and used inside the library, 8,594.

Latest acquisitions are listed on the new book shelves. But Cryder stated librarians are reluctant to present a list of books they might choose, and would rather have a student presentation of books of possible general interest.

Included in the group from the seven day book shelf are: "The Confident Years - 1885-1915" by Van Wyck Brooks, "Diary of a Young Girl" by Anna Frank, "Tallulah" by Tallulah Bankhead, "The Time of the Assassins" by Godfrey Blunden, "Far Corner" by Stewart Holbrook and "Daughter of the Pacific" by Yoko Matsuoka.

From the social sciences are: "Henry Adams" by William H. Jordy, "Equality by Statute" Morroe Berger, "Eclipse of the Rising McLoughlin, Janet Bell.

## To a raindrop, all umbrellas are the same

Yes, the nice part about umbrellas is their similarity. When the need is urgent, any one will work.

When it comes to telephone equipment, however, a general likeness isn't enough. Parts are engineered to be exactly the same no matter where they are used. Only such rigid standardization made possible the smooth and interlocking system that serves you from Penobscot, Maine, to Pescadero, California.

We're reminded of it sharply in times of disaster - from flood, blast or hurricane.

Telephone men from other areas can come and pitch right in with the same methods, tools and equipment.

But one Bell System asset isn't standardized. That is its people. It takes able, original minds to keep our business moving ahead. For college graduates qualified for and interested in such widely differing work as research, engineering, operations and administration, we offer many opportunities.

Your college placement people will be glad to tell you more about it.
