

Final SU Board Meeting Scheduled

The final fall term meeting of the Student Union board will be held at 3:30 p.m. Wednesday in the SU.

Clyde Fahlman, SU board chairman, has announced the following agenda:

1. A report on the possibility of initiating social dance instruction winter term.
2. A report from the committee

which considered the possibility of amending the members-at-large provision in the perpetuation plan to include sophomores by Tom Bland, law school representative, who is chairman of the committee.

3. Policy of relation with other campus agencies, by Maggie Powne, SU board secretary.

4. Directorate report, by Jane Wiggen, directorate chairman.

Campus capers call for Coke

Win or lose, you'll get different opinions when the gang gathers to rehash the game. But on the question of refreshment, everyone agrees—you can't beat ice-cold Coca-Cola.

THEY SATISFY *AND HOW!*

"I always smoked Chesterfields in college just like my friends" says New York secretary, Elizabeth Lydon, "and here in New York it seems like almost everyone smokes them."

Elizabeth Lydon DUKE '51

AND NOW—CHESTERFIELD FIRST TO GIVE YOU SCIENTIFIC FACTS IN SUPPORT OF SMOKING

A responsible consulting organization reports a study by a competent medical specialist and staff on the effects of smoking Chesterfields. For six months a group of men and women smoked only Chesterfield—10 to 40 a day—their normal amount. 45 percent of the group have smoked Chesterfields from one to thirty years for an average of ten years each.

At the beginning and end of the six-months, each smoker was given a thorough examination including X-rays, and covering the sinuses, nose, ears and throat. After these examinations, the medical specialist stated . . .

"It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."

Remember this report and buy Chesterfields . . . regular or king-size.
