"Coming from Europe, I do not approve too much. There is a lot of talk, but student government doesn't do too much. I think there is overemphasis."

Work Continues In Johnson Hall

Remodeling work on the top floor of Johnson hall, including the Chancellor's offices, is again under way after a delay on architect's plans, according to I. I. Wright, superintendent of the physical plant.

Extensive renovation work in Deady hall, the campus' oldest building, is expected to be completed in time for occupancy by the math department, at the beginning of spring term, according to Wright.
