D. Van Leuven, J. Nelson Hurt In Plane Crash

Nelson, University of Oregon football players, were found Sunday by the Coast Guard and taken to an Astoria hospital after their light plane crashed Saturday night in a western Washington forest near the Columbia river.

The two students, both players in Oregon's 13-7 upset game over Southern California Saturday, were cut and bruised when Van Leuven's private Cessna crashed into the trees. They were also suffering from exposure after spending the night in the open under a steady rain.

Fullback Van Leuven, who had 24 stitches taken in his head, plans to return to the campus early this week. However, Nelson's plans for returning to the University are unknown pending results of x-rays of his leg injuries.

The two Oregon players took off from Scappoose airport, 30 miles northwest of Portland, Saturday night, headed for Bandon, Van Leuven's home town. Van Leuven usually flies home after a Portland game. A search was begun for the two Sunday morning when the plane was reported long overdue. After the crash, Van Leuven and Nelson had made their way to the river bank, where they were spotted by Coast Guardsmen late Sunday morning.

George Shaw, the talented junior who played quarterback, left end and right end at different times during the game, received special mention from his coach for the brilliant job he did in the dying minutes of the game, running the clock out.

And "Cas" pointed out Dick James, who turned in the cutstanding defensive play of the game, a pass interception late in the contest just when USC was driving toward a possible TD. The (Please turn to page three)
