

Dull Says Warm Clothing Needed for Okayama Poor

A plea for usable warm clothing to be sent to help the poor of Okayama, Japan, has been made by Paul S. Dull, associate professor of political science and history. Dull spent last year on sabbatical leave in Japan and became well acquainted with the people in Okayama and their needs. Lack of

heat in homes makes warm clothing a necessity, but high prices prevent many residents from buying sufficient clothing, Dull said.

The appeal is being made on an individual basis entirely, Dull said. He has approached his classes with the idea and they have appeared quite receptive to it. The YWCA has also been consulted.

Money is also needed to help pay for the postage in sending the clothing. A student committee will administer the money collection. It will cost between \$25 and \$26 to send each 100 pounds of clothing.

Dull has the names and addresses of people he met while in Japan. He also has the assurance of help in distribution from officials in the area where he wishes the clothing sent.

Contributions of clothes or money may be left in his office, Commonwealth 310. Any baby clothing would be most appreciated, he said.

Head Sought For Dad's Day

Dad's Day general chairmen petitions are due in Student Union 304 by 5 p. m. Thursday, ASUO Pres. Tom Wrightson has announced. Selection of the chairman will be made by the ASUO senate following interviews Thursday night.

The annual day for fathers of students to visit the campus will be January 23. The Oregon Dads club will hold its meeting during the weekend and special events will be planned for the visitors.

Petitioners who wish may see the report of last year's Dad's Day chairman in the office of Karl Onthank, associate director of student affairs, Emerald hall 206.

SU Currents

Educational Films Shown Wednesday

Educational movies, sponsored by the Student Union, will be held in Commonwealth 138 Wednesday at 7 p. m. and 9 p. m.

The films will include "Follies Bergere," showing a great dancer in the intimate, world-famous night spot of Paris, "Ballet of the Paris Opera" and "Othello."

Admission to the films is free.

Theater Tickets On Sale Today

Ticket sales for the University theater's final fall term production, "Juno and the Paycock," opened this week. The modern Irish tragedy under the direction of Frederick J. Hunter, instructor in speech, will open Friday on the main stage and run until Dec. 10 with no performance scheduled for Sunday.

The box office will be open from 1 to 5 p. m. every afternoon this week and during the run of the show, Mrs. Gene Wiley, theater business manager, said. Good seats are available for all performances from Monday through Thursday of next week. Only a few tickets are left for this weekend, she added.

Featured in the play by Sean O'Casey are Donna Maulding, junior in speech, and Phil Sanders, senior in speech, as Juno and Captain Boyle. Their children, Mary and Johnny, are played by Phyllis Johnson, freshman in liberal arts, and Ken Olsen, graduate in education. Joxer Daly, a friend of Boyle's is played by Scott Lehner, sophomore in speech.

The single setting was designed by Howard L. Ramey, instructor in speech, who also supervised construction.

Gamma Phi's To Hold Tea

The annual AWS Christmas tea will be held from 2 to 4 p. m. Saturday at the Gamma Phi Beta house, according to General Chairman Sally Ryan. All women university students, faculty members and faculty wives have been invited to attend.

Men and women's living organizations this week are preparing Christmas boxes for needy Eugene area families. The boxes should be at the Gamma Phi house by Saturday noon, according to Miss Ryan. After the tea, the boxes will be taken to the Red Cross office for distribution.

The boxes may contain food, clothing, toys and games, books and other gifts. All packages should be wrapped and labeled, Miss Ryan advised.

Flying speeches publicizing the Christmas tea will be given Wednesday and Thursday. Participants in the skits will be pledge classes from Alpha Chi Omega, Chi Omega and Delta Gamma.

Drivers find gasoline cost per mile down 20%

To compare gasoline values now with the "good old days," test drivers at Standard ran popular cars of the 1920's on 1925 gas, '53 models of the same makes on today's gas, and '53 models modified to use 1925 gas. All cars were driven over the same course, on the same amount of fuel till they ran out of gas. The results may surprise you.

Today's gasoline gives you, under comparable driving conditions, 50% more miles per gallon than in 1925! What does it mean to you? Suppose you started on a trip from San Francisco to Lake Tahoe with 12 gallons of gasoline—a route covering all kinds of driving. In the old car with 1925 gas, you'd travel about 131 miles; in the new car modified for 1925 gasoline you'd go 149 miles; but in the new car with today's gasoline, you'd go all the way to Lake

Tahoe, 196 miles. Improved auto engines explain part of this—but better gasolines made them possible. You benefit steadily from the competition in research and operating efficiency between Standard and other oil companies. Competition steps up gasoline quality, helps hold prices down. While living costs have risen 54% in the last 28 years, today's gasoline costs you only 22% more a gallon (except for taxes)... gasoline cost per mile has dropped one fifth!
