

Lecture Series Topics Announced

Eight lecture topics ranging from atomic power to trends in the study of literature have been announced for the Student Union browsing room lecture-forum series for spring term.

The lectures are held each Wednesday at 7:30 p. m. in the Student Union browsing room and are sponsored by the Association of Patrons and Friends of the University of Oregon Library and the University of Oregon Library. James H. Gilbert, professor emeritus of economics, is chairman of the association.

The subjects relate current trends and problems to great books and writers in the fields of literature, landscape architecture, science, history, economics, and political science. Lectures are open to all faculty and University students.

Thursday Date Set

The first lecture of the series will be given Thursday, April 8, rather than the usual Wednesday. "Australia and New Zealand: Lands of Beauty and Compelling Interest" will be the subject of a talk by F. A. Cuthbert, professor of landscape architecture. He will illustrate the talk with colored slides. Discussion leader for the evening will be E. G. Moll, professor of English.

Colored slides will also be used to illustrate another of the lectures, the topic of which will be "New Sources of Ancient History." Benjamin Dean Merritt, professor of classics at the Institute for Advanced Study at Princeton, New Jersey, will give this talk on May 5. Discussion leader will be David M. Dougherty, head of the foreign languages department.

History to be Discussed

Two members of the history department are scheduled to give two of the lectures. On April 28, W. A. Williams, assistant professor of history will speak on "The Myth of Isolationism." "The Apes of Cicero" will be the topic discussed by Quirinus Breen, professor of history on May 12.

Simeon E. Leland, dean of the college of liberal arts and professor of economics at Northwestern university will speak May 19 on "The Urban Fringe and its Problems." Discussion will be led by C. W. Macy, head of the University economics department.

Atomic power will be discussed April 14 in a lecture by R. T. Ellickson, associate dean of the graduate school and head of the physics department. His topic will be

"Prospects of Atomic Power." F. E. Dart, assistant professor of physics will be discussion leader.

Lit Topics Announced

Literature will be the general topic of two of the lectures, to be held April 21 and May 26. On April 21, F. M. Combella, associate professor of classic languages, will speak on "Homer's Iliad: Ladies Dead and Lovely Knights." Chandler B. Beall, professor of Romance languages is slated as leader of the discussion period.

Last lecture of the term will be delivered May 26 by Ronald S. Crane, professor emeritus of English at the University of Chicago. He will speak on "Some Trends in the Study of Literature." Discussion will be led by W. Souers, head of the University English department.

Mothers Increase Scholarship Fund

The Oregon Mothers' club recently voted to add \$1000 to their scholarship fund, bringing the total of Mothers' scholarships given to University students to about \$4200, according to Karl Onthank, executive secretary of the organization.

In recent years, the club has given about \$3000 in scholarships to deserving students, he said. The additional \$1000 will come from income from the student loan service run by the mothers, he said.

'Crucible' Tryouts Scheduled Tonight

Final tryouts for the University theatre production of "The Crucible," a modern drama by Arthur Miller, will be held tonight at 7:30 in Villard 102.

Horace W. Robinson, associate professor of speech, will direct the drama, which will be presented as the last production of the University theater's current season.

"The Crucible" is the latest work by Arthur Miller the promising young dramatist, who also wrote "All My Sons" and "Death of a Salesman," which was done last year on campus. Many roles are still open, and all those wishing to read for parts are asked to do so, Robinson said.

Seven Earn Law Honors

Seven students are listed on the law school honor roll for winter term, according to figures released by the school recently.

The honor roll is based on the cumulative grade point average covering all work done in the school, and includes students having a cumulative grade point average of 3.00 or better.

The seven on the honor roll includes Malcolm Marsh, Malcolm Montague, James Hershner and William Deatherage, all third year students; John Gill, a second year student, and Elizabeth Stelle and Albert Ferris, both first year law students.

Plans Being Drawn Pamphlet Lists For Duck Preview Foreign Study

"The theme of Duck Preview weekend will be Oregon students 'selling Oregon,'" said Don Bonime, general co-chairman, at a general meeting Tuesday of all weekend committee chairmen.

Personal letters and other contact made with high school seniors who are personal friends of students will be an important factor in determining the success of the weekend, he added.

Specific program plans for the weekend have not yet been completed, but will be listed and sent to all living organizations as soon as possible, Bonime announced. Housing policies, which are being planned by Heads of Houses, Inter-dorm council and Inter-fraternity council, will be announced Friday, he added.

Pamphlet Lists Foreign Study

Summer Study Abroad, a recently-published pamphlet listing foreign summer schools open to U. S. students, may be obtained by writing to the Institute of International Education, 421 Powell Street, San Francisco, California.

Included in the leaflet is information on where to apply, credits, living arrangements, costs, transportation, and passports and visas. Scholarship information is also given.

European countries where American students may enroll for summer study are Austria, Belgium, Denmark, Eire, Finland, France, Germany, Great Britain, Greece, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, and Switzerland.

(Isn't this why more people want—and buy—Chevrolets than any other car?)

What you want most Chevrolet gives you first

See how Chevrolet stays ahead of other low-priced cars in all the things that mean the most to you. See how much less Chevrolet costs you—it's the lowest-priced line of them all. Come on in and let us show you how you can have the things you want and be a good many dollars ahead with a new Chevrolet. That's promising a lot, but we welcome the chance to prove it!

OUT AHEAD with that bigger, lower look. Only Chevrolet and leading higher-priced cars have Body by Fisher with that big, smooth, low-slung look.

OUT AHEAD with the highest-compression overhead valve engines. Chevrolet's great engines have the highest compression ratio of any leading low-priced car.

OUT AHEAD with that smooth and solid big-car ride. Chevrolet's the only low-priced car with Unitized Knee-Action—one reason for its finer road-smoothing, road-hugging ride.

OUT AHEAD with zippy, thrifty Powerglide. It's the first and most advanced automatic transmission in the low-price field. Acceleration is instantly responsive and as smooth as silk. Optional on all models at extra cost.

OUT AHEAD with bigger brakes. Chevrolet brakes are largest in the low-price field for smoother, safer stops!

OUT AHEAD with automatic power controls. Chevrolet is the first low-priced car to bring you all the latest automatic power features and controls as extra-cost options.
