Armstrong Gives Easter Address

Over 4,000 University students and Eugene townspeople attended the University Religious council-sponsored Easter sunrise service at Hayward field Sunday morning.

Charles J. Armstrong, president of Pacific university, delivered the Easter message. He was introduced by O. Meredith Wilson, president of the University. Speaking on "The Power of Belief," Armstrong said that the resurrection of Christ Jesus provided the ultimate proof of man's spiritual nature. However, to believe in the resurrection, man must have faith without seeing.

"Belief lies at the very core of Christianity," Armstrong told the Easter congregation. Man must have belief in himself, his fellow men, and most of all God. Only then can he realize his true nature. The Constitution of the United States was written around the basic idea of the innate dignity and freedom of the individual under God.

Armstrong pointed out that other influential world civilizations like the Greeks and the Hebrews accomplished things in the realm of thought rather than on a material plane. However, these civilizations fell as soon as they allowed themselves to be surfeited by materialism, he continued. He cautioned that Americans must not become so taken in by material progress that they forget the spiritual, if they do not wish to fall as Greece and Rome did.

The Eugene high school a capella choir, under the direction of Weston H. Brockway, sang two choral selections, "Almighty God of our Fathers," and "Adoramus Te Christe." Organist was Elma Yeomans Holland, Eugene. Congregational anthems were "Christ the Lord is Risen Today" and "Crown Him with Many Crowns."

An invocation by Agnes Weitz, German student, opened the annual church service. Others taking part were Tom Warnock, member of URC; Rev. Berlyn Farris, president of the Eugene Ministerial association; Bob Randall, president of URC; and Rev. Robert Ellis, president of the Religious Directors association. Dorothy Iler, sophomore in journalism, was general chairman for the event.

Described by Bill Kitchen, executive secretary of WUS as "an experiment for international understanding" workers in the project will attempt to arouse students to an awareness of international affairs and needs.

One section of the educational project consisted of questionnaires distributed to a portion of students on spring term registration
