

# Ducks Win Season Opener

(Continued from page 9)  
score after setting up the TD on a series of passes and a nice 24-yard run.

### Keller Hits Targets

The fourth and fifth touch-down drives were engineered by Keller, a 165 pounder who played Frosh ball in '52 and was held out last year.

Keller passed 31-yards to Lloyd Powell, former 6-man footballer from Triangle Lake, for one score and 14 yards to Chuck Greenely for the other.

When Keller went out, Coach Len Casanova sent in Russell, former Eugene high ace. Russell was followed by Don Holt. With two minutes left in the game Holt tossed eight yards to Leroy Campbell, a senior back from two years in the service, 23 yards to Soph Tom Crabtree, and 42

yards to Bill Moore, another sophomore.

It was the 33d win for Oregon in the Idaho series, which dates from 1901. Idaho has won two and four have ended in ties. It also tied the record high score for the Webfoots against Idaho. The Ducks won by 41-0 in 1949.

The sparkplug for Idaho was Wilbur Gary, 175-pound fullback transfer from San Pablo JC in California. Gary gained 66 yards rushing in 11 tries.

Idaho, which had a small opening day turnout, was hard hit by injuries to Backs Flip Kleffner, Ted Frostenson, and Bob Haines. Kleffner, one of the top punters in the country, will probably be held out for the season.

Oregon came out of the game with only two injuries, but both involved fullbacks. Jasper McGee suffered rib injuries while Larry Rose had a bruised shoulder.

Oregon converted five out of six times—Shaw three times and

Crabtree and Dick Pavlat one each.

STATISTICS	I	O
Net yds rushing	138	118

Fumbles lost	3	1

### Washke to Direct Football Publicity

Paul R. Washke, director of the University's intramural program, has been appointed chairman of a drive in five western states to publicize touch football rules.

As eighth district chairmen for the National College Touch Football committee of the College Physical Education association, Washke will be in charge of publicizing the rules in Oregon, Washington, California, Nevada and Idaho.

### Taylor, Caswell Die In Eugene During Summer

Two former University of Oregon department heads died just one month apart during the summer.

Albert E. Caswell, retired head of the physics department, died June 18 in Eugene. He was 70 years old.

Howard R. Taylor, retired head of the psychology department, died July 18 in Eugene.

Caswell taught at Oregon from 1913 to 1949, with only the war years and a brief leave of absence interrupting otherwise unbroken service. He worked on research during World War II and did research for the air force after his retirement in 1949.

He was the first president of the state chapter of Sigma Xi, science fraternity.

Taylor retired in 1953 after 28 years at the University. He was active in University and Eugene community life. He had been a member of the Eugene Water and Electric board for many years.

He originally came to the University in 1925 and was named department head in 1934. He retired in 1953 to devote his time to academic work.

## Get with It, Ducks, This Nest Has It!

It's happy days, what with the ducks flocking back to the old roost at Rod Taylor's... A joyous sight—Rod standing there, tears streaming down his cheeks—as he welcomes his old friends back to home away from home. And he has a special welcome for all those ducks who over the summer reached the golden age of 21 (documentary evidence please) and may now join the gay, spirited fraternity of ducks and duckesses who make Rods a happy habit. What's that new aroma wafting the air at Rods? It's roses of course... Fresh every day. And Rod wants everyone to know that his roost is strictly for ducks; there's not a goose in the place. That's at
