

Registration Daze

SITTING ONE OUT on the SU terrace are Freshmen Don Jacklin (left) and Brian Booth. Registration lines, assemblies, open houses and adviser meetings left many new students tired and a bit confused as the 1954 orientation program reached a climax at the end of this week.

Opportunities for Teaching Listed by France, Germany

Opportunities to teach English in the secondary schools of France and Germany are open to American graduate students and teachers, according to Dr. Kenneth Holland, president of the Institute of International Education.

The awards cover maintenance and incidental expenses for the 1955-56 academic year. Applications for the German assistantships must be submitted by November 1, 1954. The closing date for applications for the French assistantships is January 15, 1955.

Applicants must be a citizen of the United States, have a bachelor's degree from an American college or university by the time the award is taken up, have a good knowledge of French or German and be in good health.

Graduate students who are now enrolled in academic institutions should apply to the Fulbright Pro-

gram Adviser on campus. Other candidates should apply to the Institute of International Education, 1 East 67th Street, New York City.
