

22 Choices

Phi Sigs Seek Lunar Lovelies

Pictures and names of 22 candidates for Phi Sigma Kappa Moonlight Girl have been turned into the fraternity, according to Frank Beeman, social chairman.

The winner of the annual contest will be announced at the Phi Sig's annual Carnation ball, Nov. 6. Five finalists will be chosen from the photographs turned in by women's living organizations Wednesday night.

Joyce Bearden, Alpha Phi, was last year's winner. The Moonlight Girl receives a sweet-heart pin and her living organization receives a rotating trophy.

Candidates are: Carol Hillis, Alpha Chi Omega; Gloria Everts, Alpha Delta Pi; Georgiale Gayler, Alpha Gamma Delta; Kay Whiteman, Alpha Omicron Pi; Barbara Hogard, Alpha Phi, and Lucy Sproule, Alpha Xi Delta.

Joanne Cowart, Chi Omega; Betty Miller, Delta Delta Delta; Eileen De Wilde, Delta Gamma; Nancy Hill, Delta Zeta; Karen Stephaneks, Gamma Phi Beta; Charlotte Schmidt, Hendricks; Martha Kirkland, Highland house; Nan Pitman, Kappa Alpha Theta; Rosalie Todd, Kappa Kappa Gamma, and Mary Lou Johnson, Orides.

Marlis Claussen, Pi Beta Phi; Jo Reed, Rebec house; Jackie Swensen, Sigma Kappa; Judy Duffy, Susan Campbell; Guy Baxter, University house, and Pat Sykes, Zeta Tau Alpha.

Frosh Petition

Grad Senate Position Open; No Takers Yet

No petitions have yet been received for the one graduate student representative position open on the ASUO senate, but three freshmen have indicated a desire to run.

Both freshmen and graduate student elections will be held Nov. 10. Petitions are due Nov. 3.

Freshmen petitioning Tuesday were John Shea and Dick Porter for president, and Nancy Hogerton for representative.

Freshmen will get a chance to meet the candidates at an assembly Nov. 1, ASUO vice president Hollis Ransom has announced. At that time all the

AFROTC Parades For Award Review

The first AFROTC award review of the year was held yesterday on the ROTC drill field. Major Laurence E. Fischer, the adjutant of the Air Force ROTC detachment, made all the awards.

Awards were divided into three sections: the Distinguished AFROTC Students award, the

Air Science II Commendation award and the Air Science I Commendation award.

Students receiving the Distinguished AFROTC Student award were Alvan D. Arthur, Neil B. Dwyer, Charles O. Greenley, Lowry O. Hoyer, DeOtis N. Marlett, D. R. Mickelwait, J. Philip O'Keefe and Richard L. Petzoldt.

Other students receiving the same award were Kenneth D. Rosenlof, Don Simon, James Spiekerman, Thomas Warnock, Peter D. Williams and Dean Van Leuvan.

Richard K. Van Allen and Keith A. Robertson received the Air Science II Commendation award for the highest standards in classroom work and on the drill field during last spring term. They were also designated outstanding sophomores.

Four sophomores received the Air Science I Commendation award by meeting the same qualifications as Air Science II. They were James R. Laughton, Steward D. Johnson, Richard B. Tennant and Larry J. Anderson.

Qualifications for the Distinguished AFROTC Student award are, high moral character, leadership qualities, an aptitude for service, in the Air Force, the completion of AS III and an academic standing in the upper third of their AFROTC class. They must also be in the upper half of their class in their major.

Future Teachers Elect Officers for New Year

The Future Teachers of Oregon elected officers for the coming year at a recent meeting.

Mike Colburn was elected president of the organization. Bill Orr is the new vice-president; Cora Stanley is secretary-treasurer, and Peggy Burgess reporter.

Picture Story of Copernicus To be Displayed This Week

A picture story of Nicholas Copernicus, sixteenth century astronomer who defied the primitive view that the universe evolved around the earth, is on display on the first floor of the Science building.

In observance of the 410th anniversary last year of Copernicus' death, the Polish embassy

Board Requests Increased Funds

The state board of higher education decided Monday to request an additional \$1,162,035 from the state legislature to meet demands on state colleges created by a 14.5 per cent increase in enrollments over last year.

The board agreed at the meeting in Portland to amend its budget for operation for the 1955-57 period. The board's finance committee requested the special Monday meeting as a committee of the whole to discuss the problem of the much larger enrollments in state colleges than planners had envisioned.

1900 More Students

The state system of higher education is educating 1900 more students this year than it did last, or in the words of OSC President A. L. Strand, "the state is educating enough more students to make up a good-sized new college."

Of the \$1,162,035 in additional funds which will be requested, a total of \$311,535 would be collected by the state as student fees and tuition and the balance of \$850,500 would come from tax sources.

The unexpected increases in college enrollments throughout the state this fall have thrown off the estimated funds needed for the next two years as well as the present.

Morse to Speak Only on Issues

Wayne L. Morse, Oregon's junior senator, will speak Thursday at 1 p.m. in the Student Union ballroom on "The Political Issues of 1954."

Morse has been requested to limit his discussion to political issues rather than personalities involved in the senatorial campaign. He has been campaigning for State Senator Richard L. Neuberger, now Democratic candidate for U.S. senator.

Elected to the U.S. senate in 1944, Morse was re-elected again in 1950 on the Republican ticket. In 1952 he bolted the party and became the only Independent senator in the present senate.

Thursday 1 o'clock classes were moved up to the Tuesday 1 p.m. hour to enable students to attend the lecture.

Chancellor Charles D. Byrne explained to the board that the greatest increases have been in freshmen classes and at the graduate level. He pointed out that the freshmen can be expected to remain in school for at least two years—the period for which the legislature appropriates funds.

Predictions Invaaid

Byrne said that another important factor in the unexpected enrollment increases is the doubt of the validity of predicted enrollments for the next two years. The estimates already have been revised from an expected increase of seven percent to eight percent.

The University's increase was the most surprising to experts. Enrollment here increased nine percent this fall, from slightly over 4000 to 4406 students this year. The new estimate predicts 4800 for next year and 5175 the following year.

The total number of students in state educational institutions is now 14,725, with 15,961 expected next fall and 17,336 two years from now. The figures are for the eight institutions administered by the state board.

Fewer Special Students

Another important factor in the enrollment figures is the low number of special students, generally considered the "least stable" group, according to University President O. Meredith Wilson. This group, the "least likely to be back" next year, is down from 266 a year ago to 241, or a decrease of nine percent.

The board studied figures which pointed out that the steady growth of the University has been possible despite the adverse factors of the University's traditional monopolies on majors in physical education and business administration by enlarged curriculums in these fields at Oregon State; and the establishment of Portland State college and its status as a four-year college.

Estimates Made

The budget revision approved by the board Monday was based upon the amount of supplies and the number of teachers needed to handle the increased enrollments. The estimates were made with the student-teacher ratio, or the number of students per teachers at the institutions.

At the University, the ratio of 14.1 will increase to 14.4 next year and to 15.0 the year after that if the University is allowed to hire the necessary new teachers.

Widmark to Star In Sunday Movie

"Down to the Sea in Ships," an adventure story of America's 19th century whaling industry, will be shown Sunday at 2:30 and 5 p.m. in the Student Union ballroom, according to Joanne Jolley, member of the Movies committee. Richard Widmark, Dean Stockwell and Lionel Barrymore are the stars in the movie. Admission is 30 cents.

Play Excerpts Read Tonight

Horace W. Robinson, associate professor of speech, will read excerpts from "The Teahouse of the August Moon" with Robert D. Horn, professor of English, leading the discussion in tonight's browsing room lecture.

The Broadway play was adopted by John Patrick from a novel of the same name by Vern Sneider. It deals with the U.S. Army and the natives of Okinawa during the occupation.

The lecture will begin at 7:30 p.m. in the browsing room in the Student Union.

Photo Editor, News Photographers Sought by Oregon Daily Emerald

The Emerald is looking both for candidates for the newly created post of photo editor and for news photographers, Associate Editor Dick Lewis announced Tuesday.

Those interested in news photography are asked to meet in the Emerald news office in Allen hall at 7 p.m. Thursday, Lewis added.

The new upper staff position of photo editor is being created in anticipation of the 24-hour picture service that will be available to the Emerald in November. For the first time in its history, the Emerald will be able to print pictures of events that took place the preceding day.

It is necessary that the photo editor have some experience in photography, but primarily he will be an administrator, according to Lewis. The Emerald hopes to build its staff to include four or five photographers, including at least one man to specialize in sports.

The job of the photo editor will be to work with the news, feature, society and sports editors in planning pictures. He will then issue assignments to his staff or contact other sources for pictures.

The photo staff will have access to the new publications dark room adjacent to the Emerald

office. All film, paper and other supplies are to be furnished.

Those attending the Thursday meeting of potential photo editors and photographers will be shown the Emerald dark room. Lewis will also review some of the fundamentals of news photography.

"Some experience in either picture taking or printing is necessary for a staff position," Lewis said, but added, "interest in photography is the main requirement."

Those interested in news photography, but unable to attend the meeting, are asked to leave their names and phone numbers at the Emerald news office.
