## Duck Tracks

By GORDON RICE  
Emerald Sports Editor

Last weekend's football games produced a lot of interesting sidelights to the actual winning and losing of the games, both on the coast and elsewhere around the country. In Oregon's game with the powerful UCLA Bruins, the Ducks kept alive a record of never losing the pre-game flip of the coin this season. Captain Ron Pheister has won every toss in the Ducks' eight games.

In this same Duck-Bruin game, the UCLA team went for a touchdown the first time they got their hands on the

**RON PHEISTER**  
Calls Every Toss Right

ball. This isn't unusual for the nation's No. 1 team, but the Bruins have tallied on their first attempt in every game except against strong Maryland. It's doubtful if many people will argue that Red Sanders' boys aren't tops in the country.

Another interesting point about the Oregon-UCLA game was that the Coast conference leaders used only 28 men in trampling the Ducks 41-0. The Bruins' first-string line played virtually the entire game, since 15 of the 28 men used were backs.

A new all-time school scoring record for one season was in sight and the Bruins were after it, which accounts for their decision not to put in more replacements in the game's final stages. Contrast this with the Michigan State-WSC game in which the Spartans used 54 men in whipping the Cougars 54-6.

### Record Broken

It's too bad that Oregon had to play the Bruins in the south this year because when the Bruins held George Shaw to only 29 yards, his lowest total since coming to Oregon, it just about killed Shaw's chances of beating out California's Paul Larson for All-American honors in the eyes of California sports writers. Los Angeles and San Francisco writers usually control who will make the all-star teams from the coast, and their support will most likely swing over to Larson now.

A few other notes on last week's grid contests: Purdue gained 312 yards on only 12 passes against Iowa, but the Hawkeyes picked up 368 yards rushing and won 25-14... Alan Ameche of Wisconsin became the busiest running back of all-time when he broke the NCAA career rushing record set by San Francisco's Ollit Matson in 1951... the Cleveland Browns of the National Football league tied an all-time pro record by racking up 34 first downs against the Washington Redskins in winning 62-3.

### OSC Mentor Favors Huskies

Slats Gill, OSC hoop coach, has been quoted as saying he thinks Washington's Huskies are most-likely candidates for this season's Northern Division basketball crown. Gill has enough material on his own team to lick the somewhat inexperienced Huskies almost any time, but it looks like he's scared of not being able to lean on currently ineligible Swede Halbrook as much as last season.

Oregon's cage team is working out this year without the services of Bob Glaves, reserve center for the Duck teams the past two years. He is on probation scholastically and has dropped basketball to concentrate on his studies.

Practicing with the team, although not eligible for this year's play, is Ted "Dutch" Levine, a transfer from CCNY who is just out of the service. He came to Oregon after becoming acquainted with Wally Russell, Duck football player, in the service. He is now learning the Oregon system in order to be ready for the 1955-56 team.

## Intramural Games Moved to Monday

All Friday intramural volleyball games have been moved to Monday afternoon, due to Homecoming conflicts.

The same schedule will be in effect for the two games slated as the final contests in regular season play.

The four games will match Theta Chi against Sigma Chi and Sigma Nu against Phi Gamma Delta at 3:50 followed by Hale Kane against Campbell Club and French all against Nestor hall at 4:35. All games are in the B league.

## Phi Delts Gain Playoff

Phi Delta Theta advanced into the B league volleyball playoffs as they downed previously-undefeated Alpha Tau Omega, 15-7 and 15-9.

With Dave Earl and Neal Marlett leading the way, the Phi Delts gained an early lead and breezed home with the victory in the first tilt.

ATO bounced back in the second game and was leading nine to seven when the Phi Delts came to life and with a late surge scored six points, winning the game and the B-1 League title.

Beta Theta Pi found Sigma

Alpha Epsilon a determined, but undermanned, foe as they beat them in two straight games, 15-8 and 15-4.

Both games saw SAE starting fast and putting up a tough scrap but eventually succumbing to the superior Beta forces. This final win gave the Beta's their fourth straight win and a right to enter the B League playoffs.

The Alpha Hall Freshmen and Gamma Hall B teams had defeats chalked up against them as both failed to have teams at the courts at the scheduled game time.

## He helps teachers in 54,000 classrooms

Radio was barely out of the earphone stage 26 years ago when a new program was beamed from a San Francisco studio. It featured a string trio and was based on the idea that good music, when clearly understood, could entertain and teach, too. Actually, only 72 Western schools had radio sets then, but with that performance the Standard School Broadcast went "on the air," to serve students and teachers of the West with a brand-new idea in educational aids.

Today, when Conductor Carmen Dragon lifts his baton, it's "time for the Standard School Broadcast" in over 54,000 classrooms through the West, Alaska and Hawaii. Counting children, teachers and home listeners, the program reaches a weekly audience of nearly 1½ million. That string trio has grown to a symphonic orchestra with a dramatic cast, choral group and guest vocal and instrumental artists. Selections range the musical alphabet from symphony to jazz. Each year's course follows a carefully planned outline published in a man-

ual supplied to teachers by Standard to serve as a guide in blending music-enjoyment with subjects like art, literature, social studies. Now in its 27th year, the Standard School Broadcast is radio's oldest education program, heard today over more than 100 stations. Its goal is to help Western children gain an absorbing new interest in the world's good music and—through music—a broader knowledge and understanding of the world around them.

Listen to Standard School Broadcast every Thursday. Check your newspaper radio log for time and station.
