

Von Holt Speaks To Channing Club

H. J. Von Holt, assistant professor of psychology, will be guest speaker at next Sunday's meeting of Channing club. Mr. Von Holt will speak on "The Implications of Freud." A discussion period will follow the talk and refreshments will be served. The meeting will begin at 7 p.m. at the Unitarian church.

Miss Bachauer Plays In Mac Court Monday

Gina Bachauer, well-known Greek pianist who will play in McArthur court Monday, got an early start in music. Miss Bachauer will present the third concert program of the 1954-55 Eugene-University Civic Music association season Monday

night at 8. Admission for students is by student body cards and for Eugene residents by season tickets.

Miss Bachauer's first piano was a toy given her when she was five years old. She showed such enthusiasm that her toy piano was soon replaced by a real piano.

When she was eight years old, Miss Bachauer gave her first public recital, a short program to raise money for wounded veterans. She recalls that she personally gave the proceeds from the concert to Princess Andreus of Greece. "I gave her an envelope with the money. I was very proud," she said.

Beginning serious study at the Athens Conservatory while still a child, she considered herself only a part-time music student. She studied law in college after completing her work in the conservatory, but eventually devoted full-time to the study of music after two years of law.

After studying in Paris with Cortot and Sergei Rachmaninoff, she made her professional debut in Athens with the Athens Symphony Orchestra in 1935.

Since that time she has had a brilliant concert career in Europe, and devoted considerable time to entertaining soldiers during World War II.

Campus Briefs

● Student radio station KW-AX will go off the air after tonight until winter term, to resume broadcasting Jan. 10. A general meeting for all students now working at KWAX will be held Wednesday at 7 p.m. in studio "A." Anyone interested in working next term should attend this meeting, Jon Powell, student station manager, said.

● Members of the YWCA Senior cabinet will baby-sit for faculty and University staff members Monday night for the concert. Proceeds will go to the YWCA fund for attending national convention. Interested persons should call the YW office, Ext. 426, before noon Monday.

● Canterbury club will meet Sunday for a discussion with Father Ellis on C. S. Lewis' "Screwtape Letters." There will be a service of evening prayer at 6:30 p.m., followed by dessert and the discussion.

● The Sophomore YWCA Cabinet will meet at noon Monday in Gerlinger hall, according to Nan Hagedorn, chairman. All members are requested to attend. The Christmas party will be held.

● The sudden cold weather has taken its toll as far as the common sniffles are concerned. The infirmary lists a total of eight patients. They are: Lee

Blaesing, Margaret Bergseng, Reita Jackson, Douglas Wood, Mignon Schrader, Richard Carmody, Melvin Bankhead and Donald Rehfuess.

● French club will have its Christmas program Tuesday at 7:30 p.m. at the home of Sally Calkins, 606 East 19th street. Everyone interested in the French language is welcome.

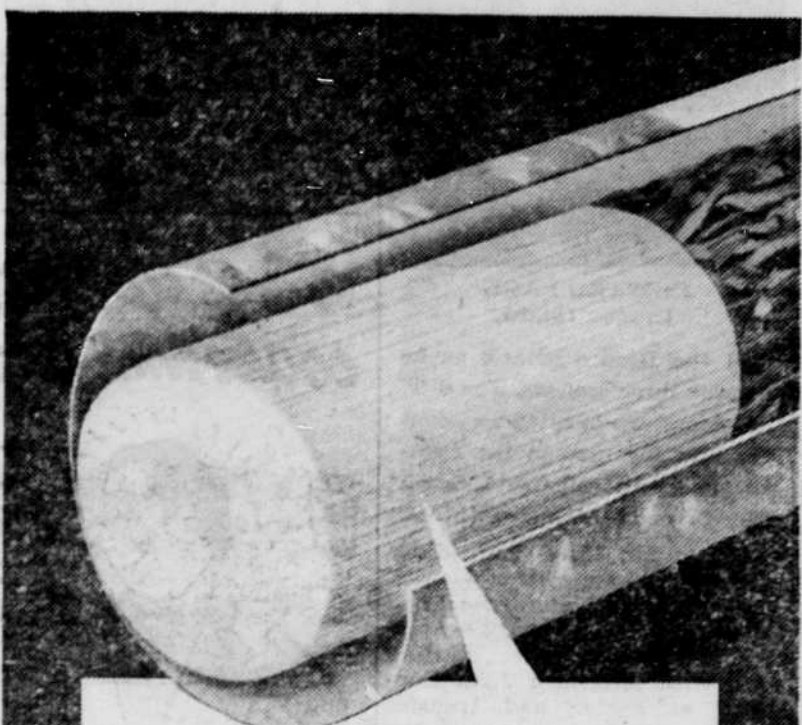

● Religious Evaluation Week chairmen will meet Friday at 4 p.m. in the Student Union, according to Bob Hastings, chairman.

● YWCA Public Affairs commission will make a trip to Salem Saturday to visit the Fairview home for mentally retarded.

What have VICEROYS got that other filter tip cigarettes haven't got?

THE ANSWER IS
20,000 FILTERS
IN EVERY VICEROY TIP

Inside every Viceroy tip is a vast network of 20,000 individual filters to filter your smoke over and over again. You get only the full, rich taste of Viceroy's choice tobaccos . . . and Viceroy's draw so freely.

Yes, you get Viceroy's remarkable new tip . . . with 20,000 individual filters . . . plus king-size length for only a penny or two more than cigarettes without filters.

WORLD'S LARGEST-SELLING
FILTER TIP CIGARETTE

Only a Penny or Two More than Cigarettes Without Filters

A CAMPUS-TO-CAREER CASE HISTORY

"All the answers aren't in the book"

W. D. Garland, E.E. '52, Univ. of California, is working for the Pacific Telephone Company. We thought you'd be interested in what Don told us about his first assignment.

(Reading time: 45 seconds)

Here Don Garland makes noise distribution measurements with a Level Distribution Recorder

"My job is to help solve problems of noise and other interference on telephone lines due to power interference. Inductive co-ordination is the technical term for the work.

"First thing the Chief Engineer explained to me was that 'all the answers aren't in the book.' He was right. Most of the problems have required a combination of electrical engineering, a knowledge of costs and generous amount of ingenuity. *I like it that way.* It's given me an immediate opportunity to put into practice the theory I learned at school.

"In addition to this on-the-job experience, I have attended several special training courses conducted by the company. Now I'm breaking in a new man, just like when I started."

Don Garland's work is typical of many engineering assignments in the Bell Telephone Companies. There are similar opportunities for college graduates with Bell Telephone Laboratories, Western Electric and Sandia Corporation. If you'd like to get more details, see your Placement Officer. He will be glad to help you.
