

Vienna University Offers Summer Courses

The University of Vienna summer school in Austria will offer a number of courses open to American students this summer.

The school is held in a nineteenth century castle, Traunsee, in the Salskammergut district. The tuition of \$200 includes trips to Salzburg and nearby places of

interest besides regular course work. Students will also be able to arrange an excursion to Vienna.

The curriculum includes German language courses and courses in Austrian art and music, the formation of the modern European mind, and the history of Middle Europe. Psychology,

political science and law are also offered.

American applicants must have completed at least two years of college in order to enroll in the three or sixweek courses.

Closing date for admission is June 15. Scholarship applications are due April 18.

Tinted Auto Windshields Hazard to Night Driving

LOS ANGELES (ACP) — Tinted automobile windshields can be a significant hazard to night driving, according to Heinz Haber, UCLA professor in transportation and traffic engineering. Studies have indicated that tinted windshields reduce visi-

bility at night as much as 45 per cent, he said.

This is not only hazardous, under conditions of low brightness caused by poorly reflecting targets and backgrounds but it is also a problem for night drivers, he said.

WHAT DID IT COST TO CREATE YOUR JOB?

If you're an average U.S. factory worker—\$12,000.

If you're a rough carpenter, it took approximately \$350 worth of tools to set you up in your trade.

Tools for a garage mechanic cost about \$3,000; for a Washington wheat farmer \$12,500, for a secretary \$300.

But if you work for Union Oil, it took \$77,000 worth of tools in the form of trucks, service stations, refineries, oil wells, etc., to create your job.* Obviously, some of our jobs require considerably less investment than \$77,000 and some considerably more. But this is the average for Union's more than 9,000 employees.

That's big money. But it accomplishes big things.

It brings Union's customers better products at lower costs. It enables each employee to produce more and therefore earn more. It creates better jobs and a higher standard of living.

**Even this figure does not include the "tools" Union rents for its employees, such as office space, tankers, telephone service, etc.*

UNION OIL 76 COMPANY
OF CALIFORNIA

This is one of a series by the people of Union Oil to explain how business functions. Your comments are invited. Write The President, Union Oil Company, Union Oil Bldg., Los Angeles 17, California.
