

Air of Coming Crisis Felt in Chiang's Capital

TAIPEI, Formosa (AP) — A sense of approaching crisis in Formosa Strait pervades Chiang Kai-Shek's capital of Taipei. The lull along the offshore island front is considered ominous. It was broken Sunday only by the burst of four Red shells on tiny Nationalist Tatan Island, near Quemoy, across the strait from Formosa.

Search Planes

Nationalist planes and warships swept the strait, looking for possible Communist buildups near Quemoy and the Matsu Islands, 100 miles northwest of Formosa.

If they found anything, it was not reported. With the Communists now on Nanchishan Island, 140 miles north of Formosa, the Matsus and Quemoy are the only important Nationalist offshore holdings.

Possible Shakeup

The idea that events are brewing in the Formosa Strait that might transform the entire situation has spurred reports of a shakup in President Chiang's Cabinet.

This may be decided at a meeting of the powerful Central Committee of the Koumintang, Chiang's ruling party. It is scheduled to open sessions Tuesday.

Military Man Wanted

Some quarters feel that the situation demands appointment of a new Premier, who in the Nationalist setup heads the Cabinet, not the government. They believe the job calls for a military man.

O. K. Yui, the present Premier, is rated as honest, capable and hard working. But he has not quite achieved Chiang's closest inner circle. He also has no military experience.

Fight to the Death

Yui had talked about fighting to the death for the Tachens and Nanchishan, all abandoned without a fight.

He may have been talking for public consumption or to delude the Communists. It is possible, however, that although Premier

he had been kept in the dark about impending events.

Three-Hour Conference

The official Central News Agency said Maj. Gen. William C. Chase visited the Matsus Sunday. It reported the head of the U. S. Military Assistance Advisory Group conferred for three hours with the garrison commander, then visited other islands in the group.

Chase was accompanied by his second in command, Maj. Gen. John C. MacDonald, and 12 other U. S. and Nationalist officers. Among the Nationalists was Lt. Gen. Yu Pak-Chuen, deputy chief of the general staff.
