

CZECH DIPLOMAT FLEES REDS

FLEEING TO ENGLAND because his homeland is "becoming more and more a Soviet colony." Czech diplomat Richard Sedleck, his wife, Helena, and their 5-year-old son seek political asylum. He was assigned to Lebanon and Syria. (International)

Faculty Group Sponsors Talk

A meeting of 25 faculty members, campus religious leaders and students, which Dr. P. J. Powers, assistant professor of romance languages, termed "a dream come true," was held Monday night in the Faculty club living room.

Powers is chairman of the faculty committee on religious and spiritual activities, which is sponsoring a series of discussions concerning various types of knowledge.

The first discussion, led by Dr. Francis Dart, assistant professor of physics, dealt with kinds of human experience leading to scientific knowledge. The group intends to expand their subject to a discussion of whether or not there are other kinds of knowledge.

In introductory remarks Monday evening, Powers expressed his hope that the group will sincerely attempt to "learn . . . and look into what is a religious experience . . . and that the discussions will not result in an intellectual juggling match."

Dart explained that his purpose was to define what is not a religious experience, and defined science as an "attempt to give an organized description of the physical world."

Speech Department Plans Hour Programs on KOAC

Each week the University's speech department presents two one-hour programs, the University Hour, over station KOAC.

These programs, which originate from the radio studios in Villard, consist of a half hour lecture, a forum of foreign students commenting on World Affairs as seen through their eyes, or a panel discussion by University students.

This half hour is under the complete direction of Dr. E. A. Kretsinger, assistant professor of speech.

On Monday's program, from 8 to 9 p.m., the second half hour is presented by the University's school of music. In the remaining half hour of Thursday's program, which is from 4 to 5 p.m., a radio play, featuring campus talent, is presented.

Tryouts are open to any eligible student. The plays, which range from light comedy to drama, usually require two to three weeks rehearsal.

National Park Jobs Offered

Representatives of the two Oregon National parks will be on campus April 7 and 12 to interview students interested in summer jobs at Crater Lake or the Oregon Caves.

Miss Shirley Sylvester, in charge of the student employment office, announced Monday that students should make appointments for these interviews as soon as possible. Minimum age for applicants is 18 years. Specific jobs and wages will be explained by the various park representatives.

Students may also inquire about possible jobs with the northern California park services and the camp counselling program.

Stock Market

NEW YORK. (AP)—The stock market closed lower Monday after a timid advance ran into late selling pressure.

Price changes ranged from around 4 points lower to 3 points higher with the emphasis on small gains and losses.

The Associated Press average of 60 stocks lost 60 cents at \$150.40. It was up \$1.20 on Friday. The average now stands \$3.20 under the peak level reached March 4.

All three components of the average declined Monday — industrials off 80 cents, railroads off 50 cents, and utilities off 20 cents.

Volume was well below the daily average so far this year at 2,500,000 shares. That compares with 2,660,000 shares traded Friday.

Royal de luxe portable typewriter, \$45. 4-0234, or ext. 418. Lee Rogers. 4-7

Strange Case of THE FOOLHARDY SKIER

THERE was once a young fellow who decided skiing was as easy as driving a car on snow-covered roads. So one day he stepped into his new skis atop a slope, and pushed off. His friends were aghast! Such confidence! He knew little or nothing about the rules of skiing—how to turn—how to stop—how to use his poles and edges. What happened? That's right. He ran smack into a large tree. Everybody on the slope said he should learn the rules of skiing before taking such chances. But nobody mentioned that neither he—nor most of them—knew or practiced the rules of winter driving. Doesn't that seem awfully foolish—and childish—when you think of the terrible death toll from winter traffic accidents? Just in case, here are the six rules* of winter driving.

- ### *THE SIX RULES OF WINTER DRIVING
1. Accept your responsibility.
 2. Get the "feel" of the road.
 3. Keep the windshield clear.
 4. Use tire chains and good tires.
 5. Pump your brakes.
 6. Follow at a safe distance.

An official public service message prepared by The Advertising Council in cooperation with the National Safety Council.

SAFE DRIVING IS A MARK OF MATURITY
