## Barbara McNabb to Marry Bob Stout; Couple Plans to Make Home in Roseburg

By Dorothy West  
Emerald Reporter

Tradition talks of the June bride, but this summer the spotlight will be taken instead by an August bride, Barbara McNabb, Alpha Chi Omega, and Bob Stout, a graduate of Oregon last year, have planned a large wedding August 27, in Barbara's home town, Los Angeles.

Their engagement was announced last October when Bob presented Barbara with a white gold solitaire engagement ring.

Bob, who was a member of Beta Theta Pi at the University, is now working for Interstate Tractor and Equipment Co. in Roseburg. Students at Oregon, especially those who are interested in basketball, will remember Bob as a member of Oregon's team for his last three years.

Their immediate plans include a small apartment in Roseburg. Barbara hopes that in the future the apartment will develop into a large low house of the California modern style, with large bay windows and contemporary furnishings. To this home, she will add the treasures of her hope chest; her china, "Weed" by Lenox and Sterling, "Royal Danish" by International.

SELECTING FURNITURE which is not only beautiful but practical is one of the young bride's problems in purchasing. Here Barbara McNabb, scheduled to be an August bride, shops for furniture with which to furnish first home.

## Furniture Keynote Today For Brides Is Simplicity

The keynote for modern furniture fashion for the modern bride is "clean-looking" and comfortable, and simply furniture. The Oregon house-wife will try to make her home look sunny and bright because of the well-known fact that Oregon weather is not always very sunny or bright.

The new trend in sofas is the soft, casual, sweep line with the pillow arm. Plaids are beginning to arrive in chairs and sofas. Much of the materials will be synthetics. There are many 90 degree couches which serve to make the room look more roomy.

### Television Popular

The bride should also note that the increasing popularity of television is making the living room or den a much more important room. There is much more sit-

ting space in the modern living room. New swivel chairs with foam rubber cushions can help to fill up the space.

There is a very great Eastern influence in furniture. People are beginning to realize the value of good modern statues and are mixing traditional accessories with modern furniture and modern accessories with traditional furniture.

### Modern Color Combinations

Two very popular color combinations this year are gold against white and lime green against yellow. A very modern trend is to have a room with one predominate color in varying shades.

Textured grass-cloth wall paper is very popular this year. The new trend in drapes is to have printed sheers and mesh materials.
