Reds Say Island Must Be 'Freed'

TAIPEI, Formosa (AP)—Red China now says Formosa must be "liberated" because an effort was made to kill "our beloved Premier Chou En-Lai," a phrase that sounds both dangerous and different.

The phrase was uttered in Peiping by Li Te-Chuan, head of

Communist China's Red Cross. The occasion was a "memorial" for 11 Communists killed in an Indian plane crash last week en route to Bandung, Indonesia.

How is that connected with Formosa? The Reds say US-Nationalist "secret agents" sabotaged the plane, a charge the United States terms ridiculous. Formosa is a Nationalist "nest." Therefore, it must be "liberated."

The phrase is dangerous because it could be used to rally the Chinese people for an attack. It is dangerous because it could be used to stir up Red partisans abroad, especially in British Hong Kong.
